Re: Re: Docket No. 7628
Petition of Green Mountain Power Corp. et al. re Kingdom Community Wind Project

Dear Ms. Hudson:

The pro se parties, Donald and Shirley Nelson, will not be filing a reply brief in the compliance proceeding referenced above.

However, we have been made aware of an error in our August 28, 2013 filing with the Board that we believe is material and should be corrected.

On page 2 of our August 28 filing, item #2, states the following:

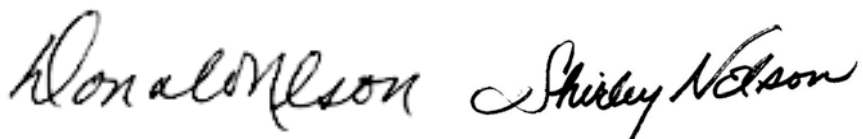

2. With NRO implemented, the project is likely to create exceedences at the Nelson property between 5% and 10% of the time during each of at least three seasons in the year - spring, summer and fall. *[Exh.Pet.-20 KHK-2 (Supplemental) Page 9]*

The statement is accurate, however, the reference cited should be corrected to *[Exh.Pet.-20 KHK-2 (Supplemental) Page 10, Figure 7]*.

In hopes of avoiding any further confusion, we have attached Page 10 of the referenced document to this letter. If you have any questions, please do not hesitate to contact us at (802) 755-6119.

Thank you for your attention to this important matter.

Sincerely,

Handwritten signatures of Donald Nelson and Shirley Nelson in cursive script.

Don and Shirley Nelson, pro se parties
