

Reference: Producer Price Index, Bureau of Labor Statistics Data

Group: Inputs to Industrial structures, goods

Percentage Change in Industrial Structures, Goods

$152.857 - 140.865 = 0.1$ (152.857 is from Dec. 2022 – 140.865 is from Dec. 2021)

Difference divided by Dec. 2021 PPI to calculate % increase = .08513 (calc is $11.992/140.865$)

$\$8,095,695 \times .08513^{**} = \$$ (Price Index Increase)

Adjusted Project Cost = \$8,784,891 (current projected cost of \$8,095,695 plus Price Index Increase of \$689,196)

* Current Projected Cost

** Percentage Change, Industrial Structures, goods

PPI Commodity Data

Series Id: WPUIP2312201

Not Seasonally Adjusted

Series Title: PPI Commodity data for Inputs to industrial structures, goods, not seasonally adjusted

Group: Inputs to industries

Item: Inputs to industrial structures, goods

Base Date: 201006
