Subject: RE: DRP Task C - Request to enlarge the due date for Distribution Utility Comments on Geotargeting and reschedule the Geotargeting Workshop
Date: Thursday, January 13, 2011 4:24:28 PM

EEU DRP Participants-

Central Vermont Public Service Corporation ("CVPS") has requested that the filing date for comments from distribution utilities pursuant to the Public Service Board's ("Board") December 14, 2010, memorandum be moved to no sooner than January 18, 2011. CVPS also requested that the workshop currently scheduled to be held on January 18, 2011, be rescheduled. Green Mountain Power Corporation ("GMP") has no objection to CVPS's request, and states that GMP may benefit from the additional time.

Because no participant has objected to the request, CVPS's request to extend the filing date for comments on geotargeting and to reschedule the geotargeting workshop is granted. Comments pursuant to the Board's December 14 memorandum should be filed by January 18, 2011. The geotargeting workshop that was scheduled to take place on January 18, 2011, will be rescheduled at a later date. Board staff are considering the afternoon of Wednesday January 26 and the morning of Friday January 28 as possible times to convene the workshop; we will circulate a memorandum next week to confirm.

Regards,

Thomas Knauer
Utilities Analyst
Vermont Public Service Board

GMP has no objection to CV's enlargement request. The additional time may even help GMP in crafting its response.

Subject: DRP Task C - Request to enlarge the due date for Distribution Utility Comments on Geotargeting and reschedule the Geotargeting Workshop

As you know, today is the due date for comments from distribution utilities that was established at the workshop to consider the Draft Navigant evaluation report on geotargeted services. This date was set to coordinate with a subsequent workshop schedule for January 18th also on geotargeting matters. By this e-mail, Central Vermont Public Service

Corporation respectfully requests that the due date for distribution company geotargeting comments be enlarged and the workshop be rescheduled.

While CVPS has been working on its response, the requirements of the many ongoing activities and priorities has meant that the Company has been unable to finalize its submission as of this time. Given the upcoming state holiday, CVPS proposes that the distribution utility filings be made no sooner than January 18th. To give participants the opportunity to review the submission prior to the workshop, the Company

also requests that this workshop be rescheduled.

CVPS would very much appreciate the opportunity for more time to finalize its submission. Should you have questions, please do not hesitate to contact me. I can be reached at (802) 537-2264.
