Subject: GMP Case #18-0974-TF
Date: Wednesday, June 13, 2018 3:49:31 PM

Dear Clerk:

This case will give me information to see if the Public Utility Commission is really consumer-oriented or not.

I do not understand why the GMP will receive 5.45% immediately but only return 4.50% and do it at 0.5%, per month, over time. Who is the loser here – I would say the consumer!

Over the course of history, GMP seems to be the ‘dog’ that waves PUC’s ‘tail’; thus my comment in the first sentence.

Hopefully, the media will present the findings once a decision has been made.

Thank you,

Garet S. Richardson
Springfield, VT.
