Case No. 17-4632-INV

Continuing issues related to the implementation of the Renewable Energy Standard	

Order entered: 08/14/2018

PROCEDURAL ORDER RE REQUEST FOR COMMENT

On August 13, 2018, the Vermont Public Utility Commission ("Commission") staff conducted a workshop to discuss the use of energy storage to meet Tier III Renewable Energy Standard ("RES") obligations. The workshop agenda included the following:

- Discussion of Green Mountain Power Corporation's battery storage program included in its 2017 Tier III savings claim report, including how the program meets the requirements of 30 V.S.A. § 8002(28) and 30 V.S.A. § 8005(a)(3)(C)(ii) and (iii); and
- Discussion of circumstances under which energy storage would be considered an eligible Tier III measure and how savings would be claimed under RES.

At the workshop, participants agreed to file additional comments addressing how or whether battery storage used to reduce peak load meets Tier III RES obligations, including the requirements of 30 V.S.A. § 8002(28) and 30 V.S.A. § 8005(a)(3)(C)(ii) and (iii).

Participants shall file comments no later than Wednesday, September 19, 2018.

SO ORDERED.
