Re: Case No. 17-5727-INV - Standard Offer Program

Dear Ms. Whitney:

VEPP Inc. takes this opportunity to provide information regarding wheeling costs in the Standard Offer Program. Wheeling costs associated with the Standard Offer Program have been decreasing. According to our projections, we anticipate wheeling costs will continue to decrease as more projects are commissioned. First, almost all pending projects are located in utility service territories, which do not charge for wheeling. Second, as projects are commissioned and the pro-rata allocation of projects per utility increases, the opportunity for wheeling charges decreases.

Best regards,

VEPP Inc.
