11/26/2018	Levering-Fisher, Kim [PUBCOM]	I am responding to the Vermont Public Utility Commission's investigation into Consolidated Communications. It is horrible! we live in an area where Consolidated is our only option for wifi. We loose service multiple times within the day which makes it extremely difficult to work from home. We call the technical line and only get "we are working on it" It seems as our internet has gotten even worse then with fairpoint and that was already horrible. Please give us a better internet option!	Filed
