Re: Green Mountain Power Corporation's Initial Annual Base Rate Filing

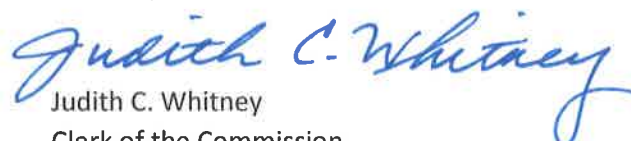

Dear Mr. Hand,

The Vermont Public Utility Commission has received Green Mountain Power Corporation's Initial Annual Base Rate Filing, which was submitted as a compliance filing in PUC Case No. 18-1633-PET (GMP's Multi-Year Regulation Plan). The Commission has asked me to direct you to refile this matter as a new tariff case. Please include revised tariff sheets that reflect the changes to the Company's rates. The Commission understands that the Company will not be able to calculate certain quarterly rate adjustments contemplated under the Multi-Year Regulation Plan ("MYRP") until after July 1, 2019. The Commission expects that those adjustments will be filed as separate tariff cases. The Commission understands that the Company has in the past filed certain informational reports made pursuant to its regulation plan as compliance filings in the case in which the regulation plan was approved. However, the Commission has determined that the better practice going forward is for informational filings to be submitted as report cases in ePUC. And, consistent with the Company's past practice, all changes to the Company's rates should be filed as new tariff cases.

The Commission has also asked me to inform you that the Commission is concerned that the proposed customer notice included with the Initial Annual Base Rate Filing may not adequately describe all the changes that customers will see on their bills starting on October 1, 2019. For example, it is the Commission's understanding that the 6.33% bill credit approved by the Commission in Case No. 18-0974-TF will be ending. Customers will also see new line items on their bills for the Emerald Ash Borer Adjustor and the Exogenous Change Adjustor. The cumulative effect of these changes will be that customers' bills are likely to increase more than the 2.92% rate increase described in the proposed notice. The Commission expects to see a revised customer notice that describes all the changes that customers will experience as a result of the revised tariffs, the MYRP, and the expiring bill credit.

Thank you.

Sincerely,

Judith C. Whitney
Clerk of the Commission
