Subject: Public Comment - Case #18.3231-PET

Hi,

My name is Cody Gerbasi. Ive been doing research because of my current situation and came across the vermont page talking about the Case #18-3231-PET. i have consolidated communications and pay a lot of money for good reliable service. I have not recieved good reliable internet service and ive been told that the problem is at the company hq from the main router. i would like to add my complaint to the case if that is possible. Thank you for your time.
