Customer Notice

Dear Southern Vermont Cable Customer,

Southern Vermont Cable Company (SVCC) and Comcast have recently filed a joint petition with the Public Utility Commission (the "Commission"). The companies propose that Comcast will acquire the services in Vermont that are currently owned and operated by SVCC. If the Commission approves the petition, Comcast will begin services in those communities that SVCC now serves and SVCC will cease operations.

The Commission opened Docket 19-4845 to consider the petition and review the details of the acquisition. You may review the petition and related documents via ePUC, the Commission's online case management system at: <https://epuc.vermont.gov>.

The Commission will hold a public hearing on February 3, 2020, at the O'Brien Auditorium in the East Academic Building at Landmark College, 19 River Road South, Putney, Vermont, beginning at 6:30 p.m. to receive comments directly from the public about this proceeding. The Department of Public Service will host a short informational session directly before the public hearing that will start at 6:00 p.m.

Comments regarding the petition may also be submitted to the Commission by mail at 112 State Street, Montpelier, VT 05620-2701, via email to the puc.clerk@vermont.gov, or online through ePUC at <https://epuc.vermont.gov>.
