

STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 19-2956-INV

Investigation pursuant to Act 62 into the creation of an all-fuels energy efficiency program, expansion of energy efficiency utility programs and services, and funding options for those programs

Order entered: 08/05/2020

**PROCEDURAL ORDER GRANTING EXTENSION AND
ADDITIONAL INFORMATION REQUEST**

On July 6, 2020, I issued an information request with deadlines of August 7, 2020, for responses and August 21, 2020, for comments on those responses.

On July 21, 2020, the Vermont Department of Public Service filed a motion to change these deadlines to August 21, 2020, and September 4, 2020, respectively. The Department represents that none of the following participants objects to its request: Vermont Agency of Transportation, Efficiency Vermont, Vermont Department of Health, Vermont Gas Systems, Inc., City of Burlington Electric Department, Vermont Electric Cooperative, Inc., Green Mountain Power Corporation, Vermont Agency of Natural Resources, Conservation Law Foundation, and Vermont Public Power Supply Authority.

No objections to the requested schedule change have been filed. Accordingly, I grant the motion and change the schedule as requested.

In addition to the topics covered in the July 6 information request, I also request that participants review and consider a recent research report issued by the American Council for an Energy-Efficient Economy titled “Braiding Energy and Health Funding for In-Home Programs: Federal Funding Opportunities.”¹ In their August 21 responses, participants are requested to comment on whether and how Vermont could tailor its participation in any of these federal programs to include home weatherization and other energy efficiency projects. Participants are

requested to identify which State of Vermont agency or agencies are best situated to present information on this topic.

SO ORDERED.

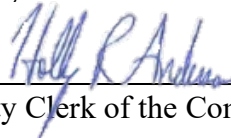

Dated at Montpelier, Vermont, this 5th day of August, 2020.
