Re: Request for Information

Date: October 14, 2020

On August 18, 2020, Margo Avery Trust (“Applicant”) requested a certificate of public good, pursuant to 30 V.S.A. §§ 8010 and 248 and Commission Rule 5.100, for the construction and operation of a 29.4 kW solar net-metering system at 297 Tucker Hill in Norwich, Vermont (the proposed “Project”).

The Vermont Public Utility Commission (“Commission”) requests that the Applicant provide the following additional information so that the Commission can continue its review of the Applicant’s request for a certificate of public good:

1. Visible and Aesthetic Impact – a description of the visible and aesthetic impact of the Project and why it will not have an undue adverse effect on aesthetics and the scenic and natural beauty of the area. Description of the location of the facility in relation to adjoining properties, including a specific statement about the visibility of the facility from adjoining properties; and , if it is highly visible, what measures the Applicant has taken, if any, to minimize the visible impact. [ref: Application at page 4]
2. Consent to Green Mountain Power’s engineering review requirements for fuse upgrades and associated costs to be borne by the Project. [ref: GMP’s 10/13/20 Comment Letter]

The Applicant is directed to file the above-requested information in writing with the Commission by October 23, 2020. The Applicant shall send a copy of its response to all persons on the attached service list.
