12/29/2020	Charbonneau, Joseph H [PUBCOM]	The MHG Solar project does not obstruct the view of the mountain was agreed upon before the testimony was given by the developer but this was not the issue. The issue is that the solar panel farm does not fit with the existing neighborhood. The neighborhood consists of a housing development that is residential and not conducive to a commercial solar array. It would have a negative effect on our neighborhood and the will detract from the value of it and our homes.	Filed
