01/08/2021	Philpot, Natalie [PUBCOM]	I am writing to express concern for the potential field of solar panels to be built on Richville Rd in Manchester Center. I am a tried and true advocate for solar power, but the placement of these panels will not work - we live on a flood plane for starters. Additionally, these panels will almost surely negatively impact the wildlife that already lives in the area. There has to be a safer and more appropriate place for these panels.
