Order entered: 03/16/2021

**ORDER CLOSING CASE**

This case was initiated by the Vermont Public Utility Commission (“Commission”) on June 17, 2016, pursuant to 30 V.S.A. §§ 209(d) and (e) to develop Demand Resources Plans (“DRPs”) for Vermont’s appointed energy efficiency utilities for the 2018-2020 performance period. Those DRPs were approved in a series of orders issued in 2017. The most recent activity in this case was approval of Efficiency Vermont’s request to adjust its budgets and savings goals for the period.<sup>1</sup> The performance period has since concluded.

On August 28, 2020, the Commission issued an order seeking comments regarding whether there are any outstanding issues in this case that must be resolved, or whether the case can be closed. The Commission established a filing deadline of September 11, 2020 and stated that “Participants that do not file comments will be deemed to assent to closing the case.”

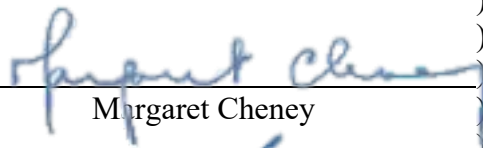

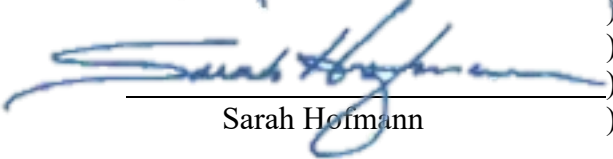

No comments were filed in response to the August 28 order. This case shall be closed.

**SO ORDERED.**
