Montpelier, VT 05602

August 17th, 2021

Re: 21-1054-NM rb Technologies, LLC, Notice of Minor Amendment

Dear Ms. Anderson,

Thank you for the opportunity to submit notice of a Minor Amendment for **rb Technologies LLC** (the “Applicant”) for a ground mounted solar project (“Project”) located at 1970 Route 14 S. On March 11th, 2021 the Applicant filed for a CPG for a 44.2 kW AC ground mounted solar project with the Public Utilities Commission (“PUC”).

The Applicant is requesting an update to the Photovoltaic System Information due to a change in the system equipment. Different PV modules and inverters than were listed in the CPG application have been chosen for the final design. This change will reduce the Project’s AC capacity (by less than 60%) and total array output. The updated Photovoltaic System Information is as follows:

- **System Capacity (AC)** – 40.0 kW AC
- **PV Module Manufacturer** - Longi
- **PV Module Model Number** - LR4-72HPH 435M
- **Number of Modules** - 132
- **Total Array Output (DC)** - DC kW
- **Inverter Manufacturer** – SolarEdge
- **Inverter Model Number** – (4) 10000HUS

All other information regarding the Project remains consistent with the original application. Thank you for the opportunity to offer our notice of a Minor Amendment. Please do not hesitate to be in touch should you have any questions or need additional information.

Sincerely,

Paul Roche | Commercial Project Assistant
