Holly R. Anderson, Clerk
Vermont Public Utility Commission
112 State Street – 4th Floor
Montpelier, VT 05620-2701

Re: Case No. 19-0855-RULE
Request for Participation and Presentation at the September 16, 2021 Workshop

Dear Ms. Anderson:

On July 1, 2021, the Notice of Workshops and Request for Comments were ordered by the Public Utility Commission (“Commission”) whereby the workshops will review potential changes to Rule 5.100.

Sunrun requests approximately 15 minutes at the September 16, 2021 *Net Metering Compensation Workshop* to present on this topic. Sunrun will provide a residential solar installer perspective on net metering compensation structures that have been considered and implemented both regionally and nationally, increasing equitable access to solar, and addressing some of the questions in the draft agenda. The presenter for Sunrun will be Kyle Wallace.

Respectfully submitted,

/s/ Kyle Wallace
