

STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 21-5254-TF

Tariff filing of Green Mountain Power Corporation for extension of Bring Your Own Device Program and Energy Storage System Service tariffs effective on bills rendered on or after January 29, 2022	
---	--

Order entered: 01/19/2022

PROCEDURAL ORDER SETTING RESPONSE DEADLINE

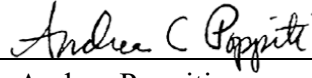

This case concerns Green Mountain Power Corporation's ("GMP") tariff filing with the Vermont Public Utility Commission ("Commission") to extend the September 30, 2022, expiration date to September 30, 2026, for the Bring Your Own Device ("BYOD") and Energy Storage System ("ESS") tariffs. The tariff changes also include a clarification to the BYOD tariff terms requiring that BYOD systems will be available to charge from the grid.

On January 18, 2022, Renewable Energy Vermont ("REV") filed a public comment requesting that the Commission approve the extension of the BYOD tariff term and reject the "new mandatory grid-charging requirement." REV explains that it is concerned that energy storage devices associated with residential photovoltaic systems that are connected to the grid will not be eligible for a federal investment tax credit ("ITC") because the ITC requires that storage systems recharge exclusively with solar energy.

GMP and the Department of Public Service are requested to provide any responses to REV's public comment by no later than 1:00 P.M. on Monday, January 24, 2022.

SO ORDERED.

Dated at Montpelier, Vermont, this 19th day of January, 2022.

Andrea Poppiti
Hearing Officer

OFFICE OF THE CLERK

Filed: January 19, 2022

Attest: 

Clerk of the Commission

Notice to Readers: This decision is subject to revision of technical errors. Readers are requested to notify the Clerk of the Commission (by e-mail, telephone, or in writing) of any apparent errors, in order that any necessary corrections may be made. (E-mail address: puc.clerk@vermont.gov)
