

STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 22-0334-INV

In re: biennial update of the net-metering program	
--	--

Order entered: 03/15/2022

ORDER RE: REVISED SCHEDULE

By order dated February 4, 2022, the Vermont Public Utility Commission (“Commission”) opened this biennial update proceeding and established March 15, 2022, as the deadline for the Department of Public Service (“Department”) to file recommendations based on the data supplied by the electric distribution utilities.

On March 9, 2022, the Department requested an extension of time, until April 8, 2022, to file its recommendations. The Department states that its analysis has been complicated by the unusually short time between this biennial update and the 2020 biennial update, which was delayed due to the COVID-19 pandemic. The Department represents that continued uncertainty regarding impacts from COVID-19 and other factors such as inflation and supply-chain constraints have complicated the Department’s analysis and delayed it in arriving at a final recommendation. The Department intends to use the requested additional time to engage with the electric distribution utilities and Renewable Energy Vermont, verify data, and complete its analysis so that it may give a more considered recommendation.

No filings in opposition to the Department’s request have been received.

The Department’s request is granted. The following revised schedule is adopted:

Date	Event
April 8, 2022	Deadline for recommendations filed by the Department and the Agency of Natural Resources (“ANR”)
April 25, 2022	Deadline for public comment on the Department and ANR’s recommendations
June 24, 2022	Commission issues Biennial Update Order

SO ORDERED.

Dated at Montpelier, Vermont this 15th day of March, 2022.
