

STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 21-4060-PET

Petition of Consolidated Communications of Vermont Company, LLC, and Consolidated Communications of Northland Company for approval of a successor (2022-2024) Incentive Regulation Plan, pursuant to 30 V.S.A. § 226b	
---	--

Order entered: 03/28/2022

COMMISSION REQUEST FOR A REVISED SCHEDULE

This case involves a petition filed with the Vermont Public Utility Commission (“Commission”) by Consolidated Communications of Vermont Company, LLC, and Consolidated Communications of Northland Company (collectively “Consolidated”) for approval of a new incentive regulation plan pursuant to 30 V.S.A. § 226b.

On March 21, 2022, the Vermont Department of Public Service (“Department”) filed a motion to amend the schedule in this case. The Department asks the Commission to amend the schedule to allow the Department an opportunity to file written responses to the recommendations made in Consolidated’s rebuttal testimony.

On March 22, 2022, Consolidated filed a response to the Department’s motion stating that it does not object to the Department’s proposed schedule changes and requesting an opportunity to present live surrebuttal testimony. The Department does not object to Consolidated’s request to provide live surrebuttal testimony.

The Commission appreciates the parties’ interest in providing additional testimony. However, the Commission prefers that any additional testimony be prefiled in written form to allow the parties and the Commission to review the materials before the evidentiary hearing.

To allow adequate time for review, the Commission asks that the parties propose a schedule that includes a deadline for prefiled, written surrebuttal testimony from Consolidated. The schedule should provide at least one week between the filing of the surrebuttal testimony and the evidentiary hearing. The parties should consult with the Clerk’s office when selecting a date for the evidentiary hearing.

SO ORDERED.

Dated at Montpelier, Vermont, this 28th day of March, 2022.
