

Mr. Depillis, in his prefiled testimony, has requested the Commission require that the stockpile be placed on slopes less than 15% as a condition of issuing a CPG.

The western half of the stockpile is on slopes greater than 15%, and the southwest corner of the stockpile is on greater than 25% slope.

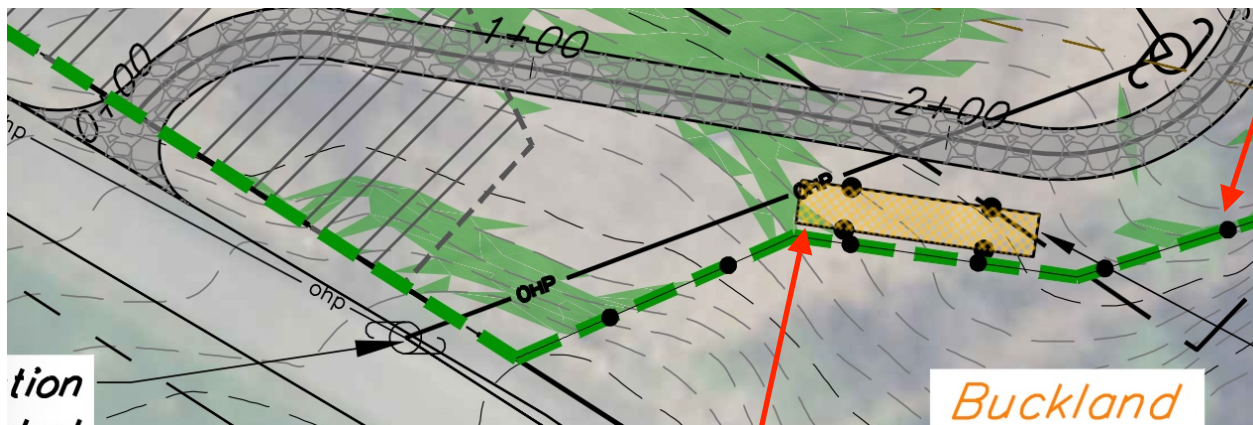

**PAS Stockpile as seen on Site Plans 1 and 2.
Minor contours are 1 ft.**

1 ft. Contour lines reveal that the PAS Stockpile is on greater than 15% slope

Limit of Disturbance

**PAS Stockpile as seen on Site Plans 4, 5, and 6.
Minor contours are 2 ft. Slopes greater than 25% are Green.**

Corner of PAS Stockpile on greater than 25% slope
