<a href="#">08/01/2022</a>	Szarejko, Justin Alan [PUBCOM]	I reside at 2372 Route 133 in Ira, VT where I own this residence. I am 100% in support for the cell tower being installed across the road from my residence. As a Police Officer and EMT this area is highly vulnerable for emergencies occurring and people not being able to reach emergency services due to no cell phone coverage in this area. The loss of life and property in this area and surrounding communities that would benefit from this, should be of the highest concern to our State leaders.	Filed
