Hello Dori,

Thank you for the email chain so I can have for our records. My supervisor signed off on the no permit required letter for this project. I also wanted to reach out directly to Martha that nothing more is needed to be in compliance with the Corps unless project plans change.

Best Regards,

Amanda L. T. Sayles

Great, thanks Dori. Let's plan for 11AM on April 26.

Best,
Angela

Hi Dori,

Thank you for providing this report. I think it would be good to review the upper limits of the mapped stream channel to ensure there are no ephemeral features that may have been missed during a summer site visit. Would someone be able to meet me out there for a site walk to review the proposed project disturbance limits? Some dates I'd be available are April 5, 6, 18, 22, 25, 26, 28.

Thank you,
Angela C. Repella

Dear Ms. Staskus,

We recently learned that Norwich Solar Development is proposing a solar project at 201 Upper Loveland Road in Norwich, Vermont. Please see the attached letter and Vermont General Permits for additional information on the U.S. Army Corps of Engineers Regulatory Program.

Please contact me at your earliest convenience to discuss.

Sincerely,

Angela C. Repella
