State of Vermont  
Grant Agreement

30400-40030  
Wild Funds

Agreement # 02240-0063

- Parties:** This is a Grant Agreement between the State of Vermont, Department of Public Service (DPS), and Vermont Technical College (VTC), located in Randolph, Vermont (hereinafter called "Subrecipient"). Subrecipient  is/  is not required by law to have a Business Account Number from the Vermont Department of Taxes. This number is 450-030213787F-06.
- Subject Matter:** The subject matter of this Grant Agreement is continuation of the anemometry loan program which includes the installation of metrology towers at chosen sites across Vermont after application review, data collection and analysis, and decommissioning of the anemometers while preparing new sites for installation. Detailed services to be provided by the Subrecipient are described in Attachment A.
- Maximum Amount:** In consideration of the services to be performed by Subrecipient, the State agrees to pay Subrecipient, in accordance with the payment provisions specified in Attachment B, a sum not to exceed \$25,000.00.
- Grant Term:** The period of Subrecipient's performance shall begin July 1, 2006 and end on December 1, 2007.
- Source of Funds:** Federal 100%
- CFDA Title:** Renewable Energy Research and Development;  
**CFDA Number:** 81.087;  
**Award Name:** Overcoming Barriers to Acceptance and Advancement of Wind Energy in Vermont;  
**Award Number:** DE-FC41-02R110952, M004;  
**Federal Granting Agency:** U.S. Department of Energy;  
**Research and Development Grant?** Yes  No .
- Amendment:** No changes, modifications, or amendments in the terms and conditions of this Grant Agreement shall be effective unless reduced to writing, numbered, and signed by the duly authorized representative of the State and Subrecipient.
- Cancellation:** This Grant Agreement may be suspended or cancelled by either party by giving written notice at least 15 days in advance.
- Contact persons:** The Subrecipient's contact person for this award is:  
John N. Kidder  
Vermont Technical College  
Dept. of Mechanical Engineering  
Randolph, VT 05061  
(802) 728-1783
- Fiscal Year:** The Subrecipient's fiscal year starts July 1<sup>st</sup> and ends on June 30<sup>th</sup>.

Fed ID/SS#: 03-0213787

Date: 8-21-2006

## ATTACHMENT A Scope of Work to be Performed

### Program Scope and Mission

The mission of this program is to continue to provide wind measurement instrumentation to Vermont businesses, farms, and other potential small-wind equipment users. The program supports student training in wind power technology, wind resource data acquisition and analysis, and the organization and communication of technical data to a customer base.

The objective of this program is providing an anemometer equipment loan service to Vermont homeowners, farms, and businesses interested in installing small wind systems on their property (10-100 kW). The program is administered by Vermont Technical College students and faculty. The anemometer equipment (towers and sensors) will remain at sites for up to 12 months. Following this, a final report will be generated that summarizes the wind power potential for that site. The program staff will be responsible for the review of the applications, installation of the equipment, monitoring the data collection, removal of the equipment, and generation of a wind resource report. The landowners will be responsible for the equipment while it is installed at their site as well as for permitting and liability insurance requirements. The program will develop some general guidelines for wind system and tower permitting and will disseminate the wind resource data on a website that was designed by VERA (Vermont Environmental Research Associates).

### Application and Site Evaluation

The program is available for persons or organizations who are interested in installing wind power systems on property in Vermont. Applications are reviewed by a small committee of people from different wind power related organizations. Applications are evaluated at regular intervals, and are evaluated based on site conditions (exposure direction, elevation, etc.), the customers plans for installation of a wind power system, and other criteria. The applications may require topographic maps and other geographic information as well as photographs of the site. If accepted the clients are then required to begin the permitting process and provide proof of insurance. The application process may include a site visit.

The instrumented towers installation is free although landowners may be asked to donate time to help with the installation. The towers are only temporary structures, so the permits are typically not difficult to obtain and are handled through the local governments such as the town zoning coordinator.

### Equipment and Training

When assessing the wind power potential at any given site manufactured by NRG Systems in Hinesburg VT, the 30 meter height is typical for small wind turbine systems with powers of 10-100 kW. The wind speed and direction are measured using cup anemometer and a wind vane which are connected to a battery-powered data logger at the base of the tower. Temperature sensors will also be installed.

Tower tubes consist of a combination of 3m (10') and 1.5m (5') sections of 152mm (6") diameter which slide together without bolts or clamps, then tilt up from the ground with a ginpole and

winch. These towers can be transported in a conventional pick-up truck and assembled by 3-4 people without heavy equipment. For this program Vermont Tech trucks will be used to transport the towers and equipment to the site.

The central challenge to erecting the towers is in the anchoring of the guy wires. The towers are supported with aircraft cable guy wires in four directions at each guy level (see figure). Guy wires are anchored with standard screw-in anchors or other anchor types for various soil conditions. No cranes or concrete foundations are required but installation of the auger or bolt anchors may require some excavation either by hand or using excavation equipment (when needed). anemometers and direction vanes are typically installed at heights where a wind turbine would be installed. This program will use 30 meter tilt-up towers, sensors, and data loggers

The NRG tower kits includes steel base plates, pre-measured guy wires on spools, screw-in anchors, all necessary hardware, and instructions. A gin pole is also required for installation of 30 m towers, acting as a lever to tilt up the tower. An installation kit will be acquired as part of the Phase I work and this single kit (which includes a winch and gin-pole) will be used in the installations.

### **Data Organization and Reporting**

Wind speed and direction data will be recorded using NRG Symphonie data loggers mounted at the base of the towers. The data are stored on removable multi-media cards (MMC). During the 9-12 month measurement period the clients will be instructed to periodically (monthly) exchange MMCs and mail the electronic data to Vermont Tech. The data will be downloaded onto a computer, and analyzed. The NRG Symphonie systems are capable of using cell telephone technology to regularly download data but in most cases manual transfer will be done to avoid the cost and complexity of maintaining cell phone accounts. After a period of 9-12 months a clients data set will be analyzed in terms of some basic metrics (e.g., average wind speed, etc.) as well as a simple analysis of how the wind conditions at the site would translate into power production and net metering credit using a standard wind turbine system.

### **Service Learning and Outreach**

The program involves students at Vermont Technical College who participate with installation of the equipment, perform data analysis and report writing, and interface with the clients through site visits and report delivery. These activities contribute to the outcomes of several programs at Vermont Tech including Mechanical Engineering, Electrical Engineering, Electromechanical Engineering, and Civil Engineering. This program acts as a service learning experience where students contribute a service to Vermonters interested in wind power while they practice their skills in engineering, data acquisition and analysis, project management, and technical report writing.

A website has been established to publish data for the various sites around the state as well as to distribute information on the program and policies. The data and the Vermont Anemometry Loan Program website files are located on a server at Vermont Technical College.

**Reporting to DPS:** Quarterly Financial Statements and Program Progress Reports are due no later than the fifteenth of the month following the quarter being reported (January 15, April 15, July 15, October 15). These reports must include a description of the work performed, copies of materials developed, data summaries, and funding expended in association with the project. A financial close out and narrative report must be submitted within 45 days of the end date of the grant agreement.

**ATTACHMENT B  
Payment Provisions**

The State agrees to compensate the Subrecipient for services performed up to the maximum amounts stated below provided such services are within the scope of the grant and are authorized as provided for under the terms and conditions of this grant.

Maximum amount payable: \$25,000.00

Quarterly Financial Statements and Program Progress Reports are due no later than the fifteenth of the month following the quarter being reported (January 15, April 15, July 15, October 15). These reports must include a description of the work performed, copies of materials developed, data summaries, and funding expended in association with the project. A financial close out and narrative report must be submitted within 45 days of the end date of the grant.

The Vermont Department of Public Service will transfer funds to VTC upon submission of continual invoices by the subrecipient, including a list of dates and hours worked and a summary of expenses incurred. The transfer of funds will occur upon DPS approved reports of activities and expenditures.

Submit Invoices to:

Joanne Chadwick  
Business Manager  
Department of Public Service  
112 State Street - Drawer 20  
Montpelier, VT 05620-2601

**All invoices submitted by the Subrecipient to the Department of Public Service will make reference to the Grant Number appearing in the upper right corner of Page 1 of this Grant Agreement. Grant Numbers may not be handwritten, so invoices without the above will be returned to the grantee. Only original invoices will be accepted, and we do not make payment from statements or facsimiles. Invoices may be emailed.**

**ATTACHMENT C**  
**Customary State Grant Provisions**

1. **Entire Agreement:** This Grant Agreement represents the entire agreement between the parties on the subject matter. All prior agreements, representations, statements, negotiations, and understandings shall have no effect.
2. **Applicable Law:** This Grant Agreement will be governed by the laws of the State of Vermont. The Subrecipient must comply with all the federal requirements pertaining to the expenditure of federal funds.
3. **Appropriations:** If this Grant Agreement extends into more than one fiscal year of the State (July 1 to June 30), and if appropriations are insufficient to support this Grant, the State may suspend or cancel this Grant at the end of the fiscal year, or otherwise upon the expiration of existing appropriation authority. **Availability of Federal Funds:** This Grant is funded in whole or in part by federal funds. In the event the federal funds supporting this grant become unavailable or are reduced, the State may suspend or cancel this Grant immediately, and the State shall have no obligation to pay Subrecipient from State revenues.
4. **No Employee Benefits For Subrecipient:** The Subrecipient understands that the State will not provide any individual retirement benefits, group life insurance, group health and dental insurance, vacation and sick leave, workers' compensation or other benefits or services available to State employees, nor will the State withhold any state or federal taxes except as required under applicable tax laws, which shall be determined in advance of execution of the Grant Agreement. The Subrecipient understands that all tax returns required by the Internal Revenue Code and the State of Vermont, including, but not limited to income, withholding, sales and use, and rooms and meals, must be filed by the Subrecipient, and information as to grant income will be provided by the State of Vermont to the Internal Revenue Service and the Vermont Department of Taxes, if required.
5. **Independence, Liability:** The Subrecipient will act in an independent capacity and not as officers or employees of the State. The Subrecipient shall indemnify, defend and hold harmless the State and its officers and employees from liability and any claims, suits, judgments, and damages arising as a result of the Subrecipient's acts and/or omissions in the performance of this Grant.
6. **Insurance:** Before commencing work on this Grant the Subrecipient must provide certificates of insurance to show that the following minimum coverages are in effect. It is the responsibility of the Subrecipient to maintain current certificates of insurance on file with the State through the term of the Grant.

Workers' Compensation: With respect to all operations performed, the Subrecipient shall carry workers' compensation insurance in accordance with the laws of the State of Vermont.

General Liability and Property Damage: With respect to all operations performed under the grant, the Subrecipient shall carry general liability insurance having all major divisions of coverage including, but not limited to:

- Premises - Operations
- Products and completed Operations
- Personal Injury Liability
- Contractual Liability

The policy shall be on an occurrence form and limits shall not be less than:

- \$1,000,000 Per Occurrence
- \$1,000,000 General Aggregate
- \$1,000,000 Products / completed products aggregate
- \$ 50,000 Fire Legal Liability

Automotive Liability: The Subrecipient shall carry automotive liability insurance covering all owned, non-owned and hired vehicles, used in connection with the Grant. Limits of coverage shall not be less than:

- \$1,000,000 Combined single limit

No warranty is made that the coverages and limits listed herein are adequate to cover and protect the interests of the Subrecipient for the Subrecipient's operations. These are solely minimums that have been set to protect the interests of the State.

7. **Reliance By the State on Representations:** All payments by the State under this Grant Agreement will be made in reliance upon the accuracy of all prior representations by the Subrecipient, including but not limited to bills, invoices, progress reports and other proofs of work.
8. **Requirement to Have a Single Audit:** If this subrecipient expends \$500,000 or more in federal assistance during its fiscal year, it is required to have a single audit conducted in accordance with the Single Audit Act, except when it elects to have a program specific audit.

The subrecipient may elect to have a program specific audit if it expends funds under only one federal program and the federal program's laws, regulating or grant agreements do not require a financial statement audit of the entity.

A subrecipient is exempt if the entity expends less than \$500,000 in total federal assistance in one year.

The subrecipient will complete the Certification of Audit Requirement annually within 45 days after its fiscal year end. If a single audit is required, the sub-recipient will submit a copy of the audit report to the primary pass-through entity and any other pass-through entity that requests it within 9 months. If a single audit is not required, the subrecipient will submit the Schedule of Federal Expenditures within 45 days. These forms will be mailed to the subrecipient by the Department of Finance and Management near the end of its fiscal

year. These forms are also available on the VISION Web page.

**9. Records Available for Audit:** The Subrecipient will maintain all books, documents, payroll papers, accounting records, and other evidence pertaining to costs incurred under this Grant Agreement and make them available at reasonable times during the period of the Grant and for three years thereafter for inspection by any authorized representatives of the State or Federal Government. If any litigation, claim, or audit is started before the expiration of the three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved. The State, by any authorized representative, shall have the right at all reasonable times to inspect or otherwise evaluate the work performed or being performed under this Grant Agreement.

**10. Fair Employment Practices and Americans with Disabilities Act:** Subrecipient agrees to comply with the requirement of Title 21 V.S.A. Chapter 5, Subchapter 6, relating to fair employment practices, to the full extent applicable. Subrecipient shall also ensure, to the full extent required by the Americans with Disabilities Act of 1990 that qualified individuals with disabilities receive equitable access to the services, programs, and activities provided by the Subrecipient under this Grant Agreement. Subrecipient further agrees to include this provision in all subgrants.

**11. Set Off:** The State may set off any sums which the Subrecipient owes the State against any sums due the Subrecipient under this Grant Agreement; provided, however, that any set off of amounts due the State of Vermont as taxes shall be in accordance with the procedures more specifically provided hereinafter.

**12. Taxes Due To The State:**

- a. Subrecipient understands and acknowledges responsibility, if applicable, for compliance with State tax laws, including income tax withholding for employees performing services within the State, payment of use tax on property used within the State, corporate and/or personal income tax on income earned within the State.
- b. Subrecipient certifies under the pains and penalties of perjury that, as of the date the Grant Agreement is signed, the Subrecipient is in good standing with respect to, or in full compliance with, a plan to pay any and all taxes due the State of Vermont.
- c. Subrecipient understands that any payment under this Grant Agreement may be withheld if the Commissioner of Taxes determines that the Subrecipient is not in good standing with respect to or in full compliance with a plan to pay any and all taxes due to the State of Vermont.
- d. Subrecipient also understands the State may off-set taxes (and related penalties, interest, and fees) due to the State of Vermont, but only if the Subrecipient has failed to make an appeal within the time allowed by law, or an appeal has been taken and finally determined and the Subrecipient has no further legal recourse to contest the amounts due.

- 13. Child Support:** (Applicable if the Subrecipient is a natural person, not a corporation or partnership.) Subrecipient states that, as of the date the Grant Agreement is signed, he/she:
- a. is not under any obligation to pay child support; or
  - b. is under such an obligation and is in good standing with respect to that obligation; or
  - c. has agreed to a payment plan with the Vermont Office of Child Support Services and is in full compliance with that plan.

Subrecipient makes this statement with regard to support owed to any and all children residing in Vermont. In addition, if the Subrecipient is a resident of Vermont, Subrecipient makes this statement with regard to support owed to any and all children residing in any other state or territory of the United States.

- 14. Subgranting:** Subrecipient shall not assign or subgrant the performance of this Grant or any portion thereof to any other Subgrantee without the prior written approval of the State. They must advise their subrecipients of requirements imposed on them by federal laws, regulations, and the provisions of contracts or grant agreements as well as any supplemental requirements imposed by the pass-through entity. They must also set up a plan for monitoring those subrecipients' use of the funds.
- 15. No Gifts or Gratuities:** Subrecipient shall not give title or possession of any thing of substantial value (including property, currency, travel and/or education programs) to any officer or employee of the State during the term of this Grant Agreement.
- 16. Copies:** All written reports prepared under this Grant Agreement will be printed using both sides of the paper.
- 17. Suspension and Debarment:** Non-federal entities are prohibited by Federal Executive Orders 12549 and 12689 from contracting with or making sub-awards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. Covered transactions include procurement contracts for goods or services equal to or in excess of \$100,000 and non-procurement transaction (grants to subrecipients). By signing this Grant Agreement, current Subrecipient certifies as applicable, that the contracting organization and its principals are not suspended or debarred by GSA from federal procurement and non-procurement programs.

**ATTACHMENT D**  
**Other Provisions**

1. **Cost of Materials:** Subrecipient will not buy materials and resell to the State at a profit.
2. **Work Product Ownership:** Upon full payment by the State, all products of the Subrecipient's work, including: outlines; reports; charts; sketches; drawings; art work; plans; photographs; specifications; estimates; computer programs; or similar documents, become the sole property of the State of Vermont and shall remain free and accessible to the public. These items may not be copyrighted or resold by Subrecipient.
3. **Prior Approval/Review of Releases:** Any notices, information pamphlets, press releases, research reports, or similar other publications prepared and released in written or oral form by the Subrecipient under this Grant Agreement shall be approved/reviewed by the State prior to release.
4. **Ownership of Equipment:** Any equipment purchased by or furnished to the Subrecipient by the State under this Grant Agreement is provided on a loan basis only and remains the property of the State.
5. **Davis-Bacon Act:** The subrecipient will comply with the provisions of the Davis-Bacon Act (40 U.S.C. 276a 7), the Copeland Act (40 U.S.C. 276c and 18 U.S.C. 874), and the Contract Work Hours and Safety Standards Act (40.327-333), regarding labor standards for federally assisted construction subrecipients.
6. **Lobbying:** Subrecipient certifies to the best of his or her knowledge and belief that:
  1. No federal appropriated funds have been paid nor will be paid, by or on behalf of the subrecipient, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement.
  2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this grant, the subrecipient shall complete and submit Standard Form-LLL, A Disclosure Form to Report Lobbying, and in accordance with its instructions.
  3. The subrecipient shall require that the language of this certification be included in the award documents for all grants or subcontracts and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this grant was entered into. Submission of this certification is a prerequisite for entering into this grant imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

AMENDMENT #1

The Grant Agreement between the Vermont Department of Public Service and Vermont Technical College (VTC) is hereby amended as detailed below:

Page 1, Section 2, Subject Matter; This section has been revised to:  
The subject matter of this Grant Agreement is continuation of the anemometry loan program which includes the installation of metrology towers at chosen sites across Vermont after application review, data collection and analysis, decommissioning of the anemometers while preparing new sites for installation, moving and installing 7 towers at new sites, data collection and reporting (and other administrative work), and decommissioning and removal of these new 7 towers. This also takes into account using \$1000.00 in the personnel part of the original budget for installation at new sites and cost overruns in equipment and travel costs. Detailed services to be provided by the Subrecipient are described in Attachment A.

Page 1, Section 3, Maximum Amount; This section has been revised to:  
In consideration of the services to be performed by Subrecipient, the State agrees to pay Subrecipient, in accordance with the payment provisions specified in Attachment B, a sum not to exceed \$37,000.00.

Page 1, Section 4, Grant Term; The grant term end date is changed from December 1, 2007 to December 1, 2008.

Attachment A, Scope of Work to be Performed; This section has been modified to include the following budget with the use of the additional \$12,000.00:

Here's a breakdown of the budget in more round numbers with some justification:

**Direct Personnel costs (salaries + FICA) \$6,850.00**

This is based on hourly costs for personnel to make 7 to 10 trips as part of the process for installing 7 towers at new sites around the state and time spent handling applications, assessing sites, communication with landowners, and other tasks associated with installing the 7 towers.

**Indirect costs (48% on salaries) \$3,150.00**

**Travel \$2,000.00 (\$0.65/mile)**

rk The is based on the mileage rate for using a full-sized van plus costs for alternate vehicles when needed. Trips for installation vary between 100 to 200 miles and additional travel is required for pre-visits and then continuation work (when one day is not enough to complete the installation).

**Materials/Supplies/Equipment \$1,000.00**

Installation usually requires some expensive consumables (winch battery, cable fasteners, etc.) and can require replacement of sensors, booms, and other hardware.

TOTAL \$13,000.00

SEP 20 A 9:43

STATE OF VERMONT  
DEPT OF PUBLIC SERVICE  
MONTPELIER, VT  
05620-2501

**We have \$1,000.00 in existing funds to contribute towards this work, making the required amount needed \$12,000.00.**

Attachment B, Payment Provisions; Maximum amount payable is changed from \$25,000.00 to \$37,000.00.

All other terms and conditions of the original grant agreement remain in force as accepted by the parties.

WE THE UNDERSIGNED PARTIES AGREE TO BE BOUND BY THIS GRANT AGREEMENT CHANGE.

Re: Docket 8585: Prefiled Testimony of Respondent David Blittersdorf

Dear Mrs. Hudson:

Please find enclosed an original and three copies of the testimony of Respondent David Blittersdorf in Docket 8585 regarding a meteorological tower located at 700 Kidder Hill Road in Irasburg, Vermont.

Please let me know if you have any questions on this filing.

Best regards,

Alison Milbury Stone, Esq.
