11/08/2023	Myrvang, Diana [PUBCOM]	As a resident of Manchester that lives on the ridgeline just above the site, the balloon test made it clear that this 140 foot tower placed in the middle of our Valley sticks out aesthetically from many locations. There are no trees in the area 100 feet in the air, so it is the only thing you see with the skyline and valley view. Another important consideration is the location of the housing development next to the site, less than 1/4 mile from a residence and 67 homes. Not smart criteria use	Filed
