

STATE OF VERMONT
PUBLIC UTILITY COMMISSION

Case No. 21-3883-RULE

Proposed creation of Vermont Public Utility Commission Rule Concerning Energy Storage	
--	--

Order entered: 11/20/2023

ORDER RE TOPICS AND QUESTIONS FOR WEBINAR SESSION 5

On December 7, 2023, the Vermont Public Utility Commission will be hosting the fifth and final session in its five-part webinar series on energy storage, presented in conjunction with the U.S. Department of Energy Office of Electricity Energy Storage Program and Sandia National Laboratories.

The fifth session will be conducted as a roundtable discussion addressing efforts by other states and entities to develop regulations for the siting, interconnection, operation, and aggregation of storage facilities, as well as their participation in wholesale markets and/or state retail incentive programs. While the speaker list is still being finalized, the Commission expects to have several representatives from New England states present to address these issues.

To make the final session as productive as possible, the Commission asks participants to submit specific topics or questions that they would like addressed by the speakers at the fifth session. The Commission will attempt to accommodate as many questions as possible but may have to prioritize requests if more are received than can be addressed in the time allotted for the discussion.

Requests should be filed into Case No. 21-3883-RULE via ePUC using the “All Other Documents” tab. Please title your document “XXX Request for Webinar 5” and fill in your affiliation in place of the XXXs. To be considered, requests must be filed no later than the close of business on December 1, 2023.

SO ORDERED.

Dated at Montpelier, Vermont, this 20th day of November, 2023.

John J. Cotter, Esq.
Hearing Officer
