Re: Case No. 23-3922-PET – Response to Commission Information Request

Dear Ms. Anderson:

Putney Green Acres Solar, LLC, Petitioner in the above-referenced matter, files this letter and accompanying affidavit in response to the Public Utility Commission's information request issued on December 22, 2023. The Commission inquired as to why Petitioner "was unable to file its request [to extend Petitioner's CPG] before the CPG expired."

As the Affidavit of Martha Staskus explains, an extension request was not filed before the CPG expired due to a regrettable inadvertent oversight. Once it was apparent that the CPG had expired, a request for an extension was prepared and submitted to the Commission.

Very truly yours,

Leslie A. Cadwell
