

Viewpoint 1: Approximately 180° panoramic view from near the northeast corner of the Project Site, panning from northeast (left) to southwest (right). The orange rectangle represents the image below, which is captured with a 50mm lens.

Viewpoint 1: View from near the northeast corner of the Project site looking southeast towards Redmond Road. (50mm)

Viewpoint 2: Approximately 180° panoramic view from the eastern area of the Project site, panning from northeast (left) to southwest (right). The CSWD organics recycling facility is visible at left. The orange rectangle represents the image below, which is captured with a 50mm lens.

Viewpoint 2: View from the eastern area of the Project site, looking southeast towards Redmond Road. (50mm)

Viewpoint 3: Approximately 180° panoramic view from the southeastern area of the Project site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm equivalent.

Viewpoint 3: View from the southeastern area of the Project site, looking northwest at the existing Project field and industrial buildings. (50mm)

Viewpoint 4: Approximately 180° panoramic view from Redmond Road southeast of the Project Site, panning from southwest (left) to northeast (right). An existing building on the Project parcel is visible at center. The orange rectangle represents the image below, which is captured with a 50mm lens.

Viewpoint 4: View from Redmond Road southeast of the Project site, looking northwest towards the proposed array. (50mm)

Viewpoint 5: Approximately 180° panoramic view from Redmond Road, panning from southwest (left) to northeast (right). The entrance to the VELCO storage facility is directly behind this view. The orange rectangle represents the image below, which is captured with a 50mm lens.

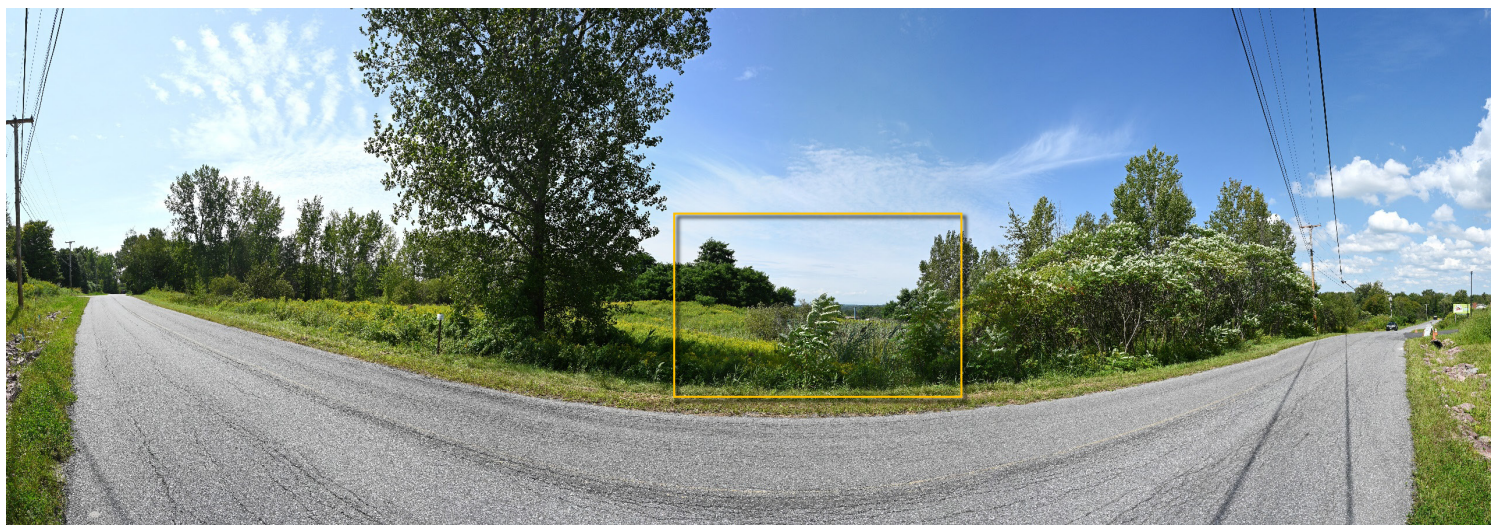

Viewpoint 5: View from Redmond Road southeast of the Project site, looking northwest towards the proposed array. (50mm)

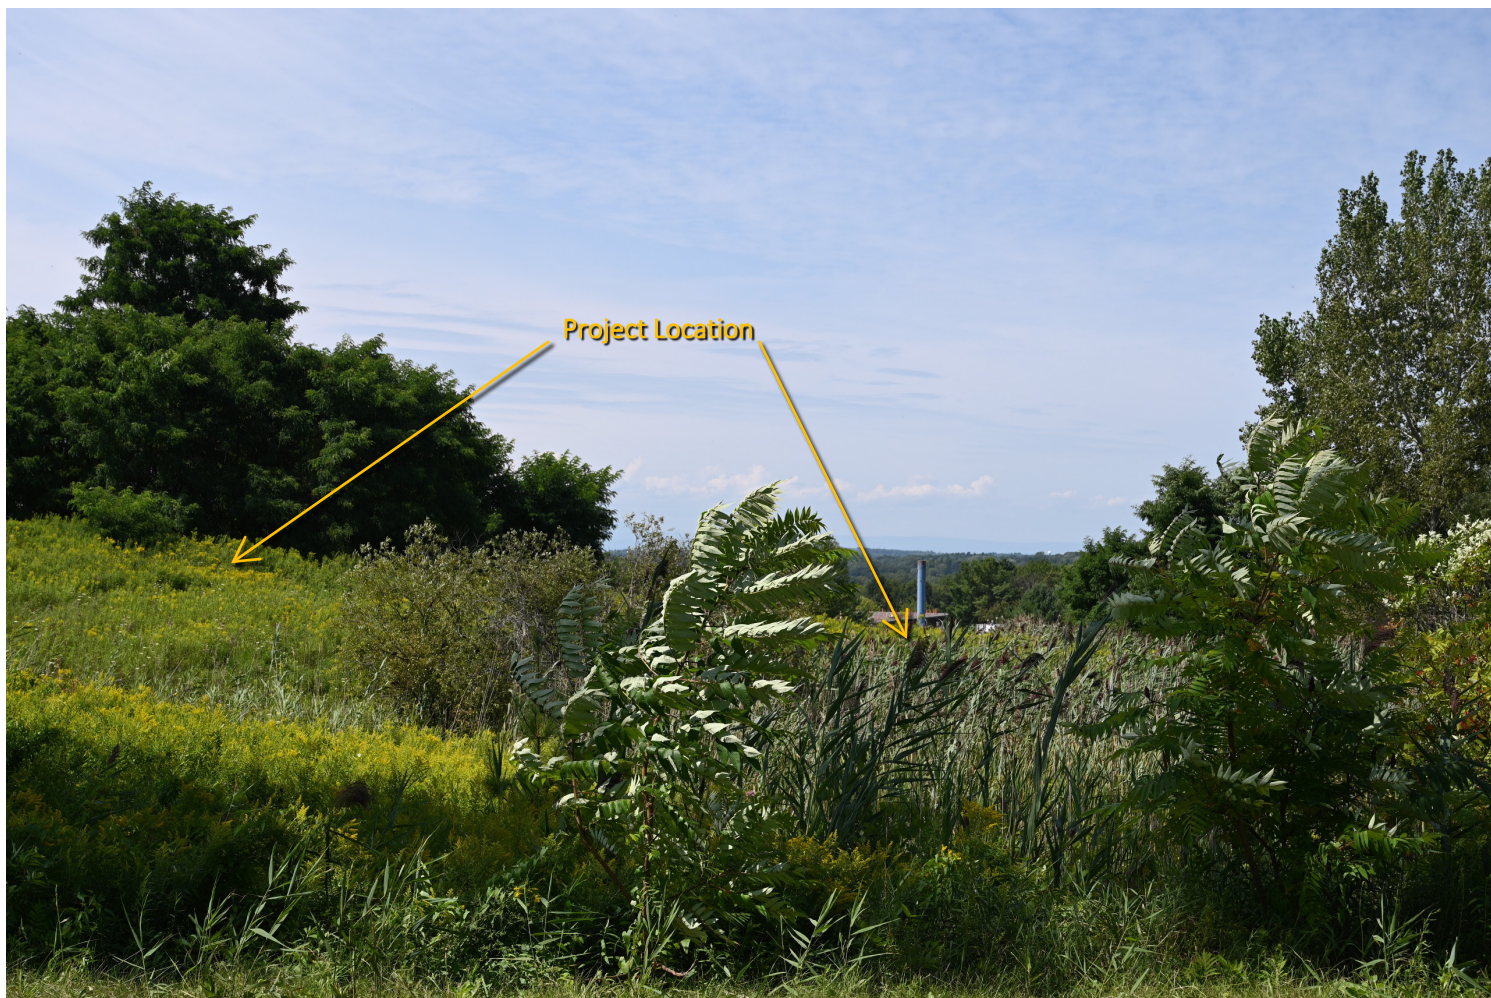

Viewpoint 6: Approximately 180° panoramic view from Redmond Road east of the Project site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm lens.

Viewpoint 6: View from Redmond Road east of the Project site, looking northwest towards the proposed array. (50mm)

Viewpoint Z: Approximately 180° panoramic view from Redmond Road east of the Project site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm lens.

Viewpoint Z: View from Redmond Road east of the Project site, looking west towards the proposed array. (50mm)

Viewpoint 8: Approximately 180° panoramic view from Redmond Road just south of the intersection with Chip Alley (gated), panning from southwest (left) to northeast (right). The existing CSWD organics recycling facility is located at far right. The orange rectangle represents the image below, which is captured with a 50mm lens.

Viewpoint 8: View from Redmond Road east of the Project site, looking west towards the proposed array. (50mm)

Viewpoint 9: Approximately 180° panoramic view from Redmond Road northeast of the Project Site, panning from southwest (left) to northeast (right). The CSWD organics recycling facility is located at far left. The orange rectangle represents the image below, which is captured with a 50mm lens.

Viewpoint 9: View from Redmond Road northeast of the Project site, looking southwest towards the proposed array. (50mm)
