

PROFESSIONAL EXPERIENCE**Encore Renewable Energy***Project Manager – Development**Project Associate – Development***Burlington, VT**

March '24 - Present

June '22 - March '24

- Developing 76 MW of commercial-scale and community solar and 5 MW of storage assets in Vermont and Illinois
- Build and maintain project budgets and schedules from early development through commissioning.
- Manage community relations and local, state, and federal permitting efforts to obtain approvals and required documentation for project permits.
- Conduct due diligence to de-risk greenfield projects and potential acquisitions from typical threats (title, environmental and social/historical constraints, interconnection/hosting capacity).
- Create and implement process efficiencies and internal tracking tools.
- Lead matrixed team of project team members across external survey, design, environmental, legal, and other consultants to prepare permit applications and supporting documentation.
- Lead Justice, Diversity, Equity, and Inclusion (JDEI) team efforts, focusing on education and external partnerships.
- Implemented company-wide philanthropy policies to include project-level community benefits package and employee-level corporate match program.
- Represent Encore at Vermont Businesses for Social Responsibility, Women in Renewable Industries and Sustainable Energy, Vermont Works for Women, and Vermont B Corp Collective JDEI efforts.
