The Agency of Natural Resources ("Agency" or "ANR") by undersigned counsel, hereby serves the following First Set of Information Requests upon Petitioner Essex A North Lot Solar, LLC ("Petitioner") in accordance with Public Utility Commission Rule 2.214 and V.R.C.P. 33 and 34, and requests that Petitioner answer the requests in accordance with V.R.C.P. 33 and 34 and deliver its answers and all requested documents and materials to the Agency's offices as soon as possible but in no case later than October 30, 2024. Petitioner is requested to provide a copy of its answers in electronic format, that is, Microsoft Word or another format readable by the Agency.

INSTRUCTIONS AND DEFINITIONS

1. Reproduce the request being responded to before the response. Provide one complete hard copy of your responses and an electronic copy. All spreadsheets and computer data should also be provided electronically.
2. Responses to any and all Agency requests that are contained herein or that may be filed later should be supplied to the Agency as soon as they become available to Petitioner. That is, Petitioner should not hold answers to any requests for which it does have responsive data, documents, etc., until responses to any or all other requests are compiled.

3. The response to each request should be made under oath by a person competent to testify concerning the response and all documents and exhibits produced as part of the response. With respect to each request, please state (1) the name(s) and title(s) of the person or persons responsible for preparing the response; and (2) the administrative unit which maintains the records being produced or maintains the data from which the answer was prepared; and (3) the date on which each question was answered.

4. Where information requested is not available in the precise form described in the question or is not available for all years (or other periods or classifications) indicated in a series of years (or other periods or classifications), please provide all information with respect to the subject matter of the question that can be identified in Petitioner's work papers and files or that is otherwise available.

5. These requests shall be deemed continuing. Petitioner is directed to change, supplement and correct its answers to conform to all information as it becomes available, including the substitution of actual data for estimated data. Responses to requests for information covering a period not entirely in the past (or for which complete actual data are not yet available) should include all actual data available at that time and supplementary data as it becomes available.

6. Wherever responses include estimated information, include an explanation (or reference to a previous explanation) of the methods and calculations used to derive the estimates.

7. Some of the Agency's requests may make particular reference to a portion of a filing in this matter. Notwithstanding this specific direction, these items should be understood to seek discovery of all information available to Petitioner that is responsive to the questions stated.

8. Documents produced pursuant to these requests shall be organized and labeled in correspondence with the paragraph number to which they are alleged to respond. With respect to each document produced by Petitioner, identify the person who prepared the document and the date on which the document was prepared.

9. If any request to admit is responded to by a denial or an objection, explain in detail the reason for such denial or objection.

10. If in response to any request for information, the responding party asserts attorney client privilege, attorney work product, or any other privilege, please provide in addition to the basis of the privilege the date of the allegedly privileged communication(s), the identity of all persons who were party to the allegedly privileged communication(s) or who received photocopies of such communication(s), and the subject matter of the allegedly privileged communication.

11. If any interrogatory or request is objected to in whole or in part, please describe the complete legal and factual basis for the objection and respond to all parts of the interrogatory or request to the extent it is not objected to. If an objection is interposed as to any requested documents, please identify the document by author, title, date and recipient(s), and generally describe the nature and subject matter of the document as well as the complete legal and factual basis for the objection.
