RE: Case 24-3335-INV EEU Triennial Plan 2024-2026 Update 2025

Dear Ms. Anderson:

Vermont Gas is pleased to submit to the Public Utility Commission (“Commission”) this Updated 2025 Triennial Plan (“Plan”) as part of Case 22-2954-PET Petition of Vermont Public Service to initiate an Energy Efficiency Utility (“EEU”) Demand Resource Plan proceeding for the 2024-2026 performance period.

Vermont Gas submits this Plan with a focus on 2025 to the Commission pursuant to the responsibilities of Vermont Gas to deliver EEU services. The Plan is designed to further the State’s Energy Goals set forth in 10 V.S.A. §§ 578, 580, and 581 by decreasing greenhouse gas emissions, reducing the annual fuel needs in customer’s served by Vermont Gas as well as serving the needs of income sensitive Vermonters. The comprehensive suite of energy services will benefit Vermonters, contribute towards Vermont’s energy and environmental goals as well as benefit the state’s economy.

Vermont Gas will continue its strong partnerships with the Department of Public Service, Burlington Electric Department, Efficiency Vermont, Champlain Weatherization Office of Economic Opportunity as well as other partners in order to help Vermonter’s decrease their carbon footprint, increase their comfort levels and reduce both fuel consumption and costs.

Sincerely,

A handwritten signature in black ink that reads "Karen Horne". The signature is written in a cursive, flowing style.
