Re: Petition of Reservoir Road Solar, LLC, for a Certificate of Public Good, pursuant to 30 V.S.A. § 248, to construct, own, and operate a 2.375 MW ground-mounted solar electric generation facility in Berkshire, Vermont

Dear Mr. Poor:

On December 4, 2024, Reservoir Road Solar, LLC (“RRS”) filed a Petition with the Vermont Public Utility Commission for a Certificate of Public Good pursuant to 30 V.S.A. § 248, a copy of which has been served on the Department via ePUC. With this Petition, RRS is requesting Commission approval for the installation and operation of a 2.375 MW solar electric generation project located in Berkshire, Vermont.

RRS respectfully requests that the Department of Public Service make a determination under 30 V.S.A. § 202(f) that the Project is consistent with the Vermont Electrical Energy Plan. The issue has been addressed in the prefiled direct testimony of Sam Carlson, submitted with the Petition.

Please let me know if you have any questions concerning the filing. We look forward to hearing back from the Department at your earliest convenience.

Sincerely,

Victoria M. Westgate, Esq.
