MEMORANDUM

To: Reservoir Road Solar, LLC
From: Elizabeth Schilling, Esq., Reviewer 
Re: 24-3571-PET – Incomplete Filing
Date: December 16, 2024

On December 4, 2024, the Vermont Public Utility Commission (“Commission”) received your petition to construct a 2.375 MW solar electric generation facility in Berkshire, Vermont.

Commission staff have reviewed the petition and supporting prefiled testimony and exhibits and have determined, pursuant to Commission Rule 5.406, that the petition is incomplete because it does not include testimony or evidence addressing 30 V.S.A. § 248(b)(4) (economic benefit).¹

Based on the above, under Commission Rule 5.406, “[t]he Commission will not take any further action on an incomplete petition unless and until the petitioner files the missing information and the Commission determines that the petition is administratively complete.” Accordingly, the Commission will not take any further action in this case until Reservoir Road Solar, LLC files testimony and/or exhibits fully addressing the noted deficiency.

¹ On page three of Sam Carlson’s testimony, he states that he will address this criterion, but his testimony does not appear to.
