Re: Case No. 24-3460-INV, Public Utility Commission investigation into thermal energy exchange networks pursuant to Act 142 of 2024

Dear Ms. Anderson:

On April 23, 2025, the Commission issued information requests on topics related to the prospective regulation of thermal energy exchange networks, with responses due by May 19. On April 29, the Department of Public Service (“Department”) requested that the Commission extend the time to respond for all participants to June 16. Vermont Gas Systems, Inc. supports the extension request. Echoing the Department’s statement that the information requests cover a broad scope of subjects and seek a high level of detail, we believe an extension would result in higher quality responses.

Please contact me with any questions.

Respectfully submitted,

/s/ Mary G. Bouchard
