I already pay 1/3 the cost of my mortgage a year for electric due the already insane price gauging that Hardwick Electric has been charging us. I have filed a previous complaint before tariffs went into effect due to the ridiculous prices set by this monopoly. I have paid as much as \$550 for two months and this winter paid 1500 for four months. I am going broke as it is due to this expense and If you raise the rate, I will not be able to continue to pay my mortgage and will not be able to continue to live in this already over priced state.
