

**STATE OF VERMONT
PUBLIC UTILITY COMMISSION**

Case No. 25-0257-PET
Amended Petition of Rising Tide Towers II,
LLC pursuant to 30 V.S.A. § 248a requesting a
Certificate of Public Good for an installation of
a wireless telecommunications facility in
Pownal, Vermont

**REPLY TO PETITIONER'S OPPOSITION
TO MOTION TO CHANGE SCHEDULE**

Intervenor Tanya Hart states:

1. I had requested that the Scheduling Conference in this case be continued until such time as the new site plans had been submitted. The Scheduling Conference went ahead over my objection.
2. At the Scheduling Conference, I indicated that I agreed to the schedule contingent on my review of the newly filed site plans and supporting documents. I also indicated that I would like to see a balloon float.
3. At the Scheduling Conference, and at the Thursday April 24th town meeting (which Petitioner incorrectly states occurred on April 28th, the date of the scheduling conference), Petitioner stated unequivocally that the new site plans would not change the location of the proposed tower.
4. Contrary to their repeated representations, Petitioner has moved the tower. The impact of that move is complex due to the very steep topography. According to the topographical map in Petitioner's own filings, the base of the proposed tower now sits at a higher elevation than originally proposed.

Accordingly, the Schedule should be amended to incorporate a site visit and balloon float as requested. A site visit, and the balloon float are necessary for the Intervenor, the PUC and all interested parties to appropriately assess the impacts of this revised petition.

Dated at Pownal, Vermont this 12th day of June, 2025.

/s/ Tanya Hart
