¹ This form is for use by eligible businesses applying for an Energy Savings Account (“ESA”). Application review is conducted by the Energy Efficiency Utility (EEU), Vermont Department of Public Service, and the Vermont Public Utility Commission (Commission). The applicant is required to file this application as a petition in ePUC, the Commission’s case management system. ESAs allow eligible Vermont businesses to self-administer energy efficiency by setting aside a portion of their Energy Efficiency Charge (EEC) to support their energy efficiency projects. Eligible businesses include those that pay over \$5,000 per year (or an average of \$5,000 per year over three years) in EEC charges as noted on monthly statements provided by their Vermont electric utilities.

Energy Project Capability

6. Describe your company's general experience, capacity, strategy and commitment to pursuing cost effective energy efficiency (electric and thermal), demand management, combined heat and power, or energy storage. Include your company's ability to develop and maintain proper documentation for verifying projects energy savings.

Applicant attestation to follow program guidelines

7. Applicant agrees to follow all Commission rules governing ESA, including those in the March 12, 2025 Order in Case No. 24-2317-INV, and all requirements in the Energy Savings Account and Customer Credit Program Guidelines.

Authorized Negotiator Sign here:

Electric Account Information*

Provide information for each electric utility account to be considered for the Energy Savings Account^{2*}

Important Note: Fields must be completed for each electric account that applicant intends to include in the ESA, but account numbers themselves should not be listed. The account numbers must be provided separately to the EEU. Attach additional copies of this table to the application form as needed.

8. Electric Utility	9. Annual Cost of Total Energy Efficiency Charge (EEC) (Actual or average over three years)
10. Total annual EEC Charge for all accounts: <i>Sum of either the most recent 12 months or the annual average of the last 36 months. (See below for documentation requirements.)</i>	

² If a parent company is not listed on all of the accounts as the electric utility customer they cannot combine accounts.

Instructions for Energy Savings Account Application Form

The details outlined below provide guidance on how to complete the information required in the application.

1. Submission Date: the date of application submittal.
2. Primary Contact: the person who will be the main point of contact for the program and projects. This may be the same person identified as the Technical Manager, Finance Manager, and/or Authorized Negotiator.
3. Technical Manager: the person responsible for oversight of energy efficiency projects and calculations.
4. Finance Manager: the person who will be responsible for reporting monthly EEC information to Efficiency Vermont or Burlington Electric Department, as well as the individual to receive remittance for qualified expenses.
5. Authorized Negotiator: the person authorized by the company to apply to the program and sign documents on behalf of the organization.
6. Energy Project Capability: includes your company's experience, capacity, strategy, and commitment for making energy improvements in your facility or facilities.
7. Electric Utility: the name of the electric utility that services each account.
8. Name on Utility Account: the name of the electric utility customer that appears in the mailing address on the electric utility bill. Do not list account number(s).
9. Annual Cost of Energy Efficiency Charge: the sum of the EEC payments in the 12 months preceding this application or the annual average EEC payments over the 36 months preceding this application for each account listed. For new properties in which there is not 12 months of data, please contact the Department of Public Service for guidance on how to estimate annual EEC charges.
10. Sum of the Annual EEC Charge for All Accounts: the sum of the values provided in column 9.

ESA Application Submittal in ePUC

The applicant is required to file this application as a petition in ePUC. The applicant will select a new petition case, with a filing type of "ESA Application." The applicant is required to upload a signed version of this application form in ePUC. Questions about ePUC should be directed to the Clerk of the Commission at 802-828-2358 or puc.clerk@vermont.gov.

Documentation of EEC Charges

Applicants must submit documentation of EEC charges directly to the EEU (Efficiency Vermont or Burlington Electric Department) that are equal to or greater than \$5,000 annually as follows: Copies of 12 or 36 months of electric bills for each account (with account number(s) included). This documentation should not be filed in ePUC.

Send EEC charge documentation to:
