07/21/2025	Power, John [PUBCOM]	The most recent rate increase request in egregious as well as poorly timed. My most recent bill was charged at \$.247/KWH which is a rate that any well managed utility should be able to make money at. As a matter of fact our NH neighbor's properties have rates that range from \$.18-.23/KWH. I strongly request that VT pushed back on these increases to help keep the state affordable.	Filed
