I am a resident of Rochester, Vt and GMP customer. I am writing to you to express my extreme displeasure and frustration with this increase. My social security does not get increased. I have worked all my life and expected I would be able to take it a little easy at 73 years old but I have to try to find some menial low paying job to be able to afford electricity and my taxes. Everyone is expected to keep paying more and more. When will the PublicUtility Commission get with reality for those of us who have no more to give. Maybe the GMP administration can take a cut? Maybe they can cut their air conditioning off? Or downsize their staff? It is your turn to give so we all can afford to live.
