Are you people out of your minds requesting approval for a 7.35% increase to base rates. This ridiculous request falls right in line with the crooks running NY, California, Massachusetts, etc. Tell Bernie to stop flying around the country promoting Democratic propaganda and remain in Vermont and work for the Vermont people that voted him into office!!!

CUSTOMER NOTICE

As part of its current approved Multi-Year Regulation Plan (Plan), GMP filed a request for a change in base rates to be reviewed by the Vermont Public Utility Commission (PUC). For the period of October 1, 2025, through September 30, 2026, GMP is requesting approval for a 7.35% increase to base rates.

Base rates cover projected routine costs to serve customers with safe, reliable power. The proposed changes in base rates this year reflect increases in regional energy markets and regional transmission costs. For an average residential customer using 550 kWh per month, this is about \$9 more a month. The PUC and Department of Public Service (DPS) will review this request over the coming months, with the DPS providing recommendations to the PUC by August 1, 2025.
