Case No. 25-1543-PET

Weston A. Cate  
2518 US Rt 2  
Marshfield, VT 05658  
Phone: 802-249-7344

My name is Weston A. Cate, and I'm a life long Vermonter. I've lived in Marshfield for a total of 21 years. I am an abutting land owner to the proposed cell tower site. I am concerned about the aesthetic impact from Rt 2 right near my home, and all the way to Marshfield Village and beyond. This would be an industrial intrusion on the natural vista, which threatens to erode appreciation of the natural environment I grew up in. Bit by bit we are giving away what makes Vermont special. I am concerned that the cell tower plan as proposed does not comply with the Marshfield Town Plan and Marshfield Telecommunications Bylaw. These documents were written through community efforts to preserve the values that the Marshfield Community considers important. No one else can protect my rights and the rights of our community. For these reasons I request a hearing and I submit this Notice of Intervention.

Sincerely,  
Weston A. Cate III
