Dear Members of the Vermont Public Utilities Commission,

Hello! I am writing you in regard to the proposed communication tower to be located just off of Rt. 140 in Tinmouth. I am very opposed to this project for the following reasons.

- **It is too close to five homes one of which is ours, exposing those of us who live here to unhealthy, hazardous conditions.** Older people with health conditions live in three of the homes, and young children in a fourth home.
- The location of the tower will not improve cell service, as it is in a hollow, low area.
- Tinmouth is a special place, and we don't want to look at a tall, communication tower in our town.
- The entity who is planning to put up the tower has no connection to our community, and the tower itself will not benefit the town in any measurable way.
- The tower does not fit into the town plan, and is sited to go into a protected zone.
- Siting the tower in our town, close to existing homes, could significantly lower our home values.

In closing, I ask that you turn down the request to site the tower in Tinmouth for health, esthetic, environmental, and economic reasons. Thank you for taking my thoughts into serious consideration when making your important decision!

Respectfully submitted,

Janet Krantz
