

Viewpoint 1a: Approximately 180° panoramic view from the northern subarray area within the Project Site, panning from east (left) to west (right). The orange rectangles represent the images below, which are captured with a 50mm focal length. (Date Taken: 03/08/2024)

Viewpoint 1b: View from the Project site looking southeast at existing field and solar array beyond hedgerow. (50mm)

Viewpoint 1c: View from the Project site looking south at existing field and buildings beyond hedgerow. (50mm)

Viewpoint 1d: View from the Project site looking southwest at existing field and small gap in vegetation. (50mm)

Viewpoint 2a: Approximately 180° panoramic view near the center of the two subarrays, panning from east (left) to west (right). The orange rectangles represent the images below, which are captured with a 50mm focal length. (Date Taken: 03/08/2024)

Viewpoint 2b: View from the Project site looking southeast at existing fence, small solar array in field, and buildings. (50mm)

Viewpoint 2c: View from the Project site looking south at existing access road, small solar array, and farm structures. (50mm)

Viewpoint 2d: View from the Project site looking southwest at existing field and farm structures. (50mm)

Viewpoint 3: Approximately 180° panoramic view from Mountain View Road southwest of the Project Site, panning from northwest (left) to southeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 08/24/2023)

Viewpoint 3: View from Mountain View Road looking northeast towards the Project site (beyond buildings). Existing solar structures visible in the background. (50mm)

Viewpoint 4: Approximately 210° panoramic view from Mountain View Road southeast of the Project access road, panning from west (left) to southeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 07/28/2025)

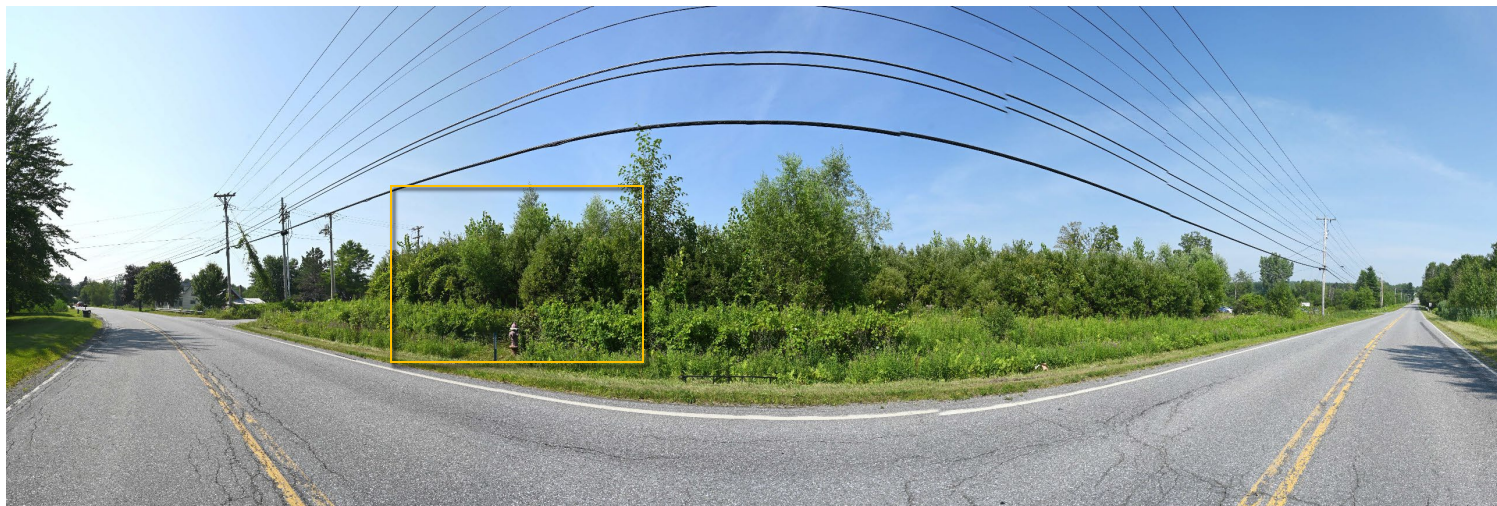

Viewpoint 4: View from Mountain View Road looking northeast towards the Project site. (50mm)

Viewpoint 5: Approximately 250° panoramic view from the existing access drive at the intersection with Mountain View Road, panning from west (left) to east (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 07/28/2025)

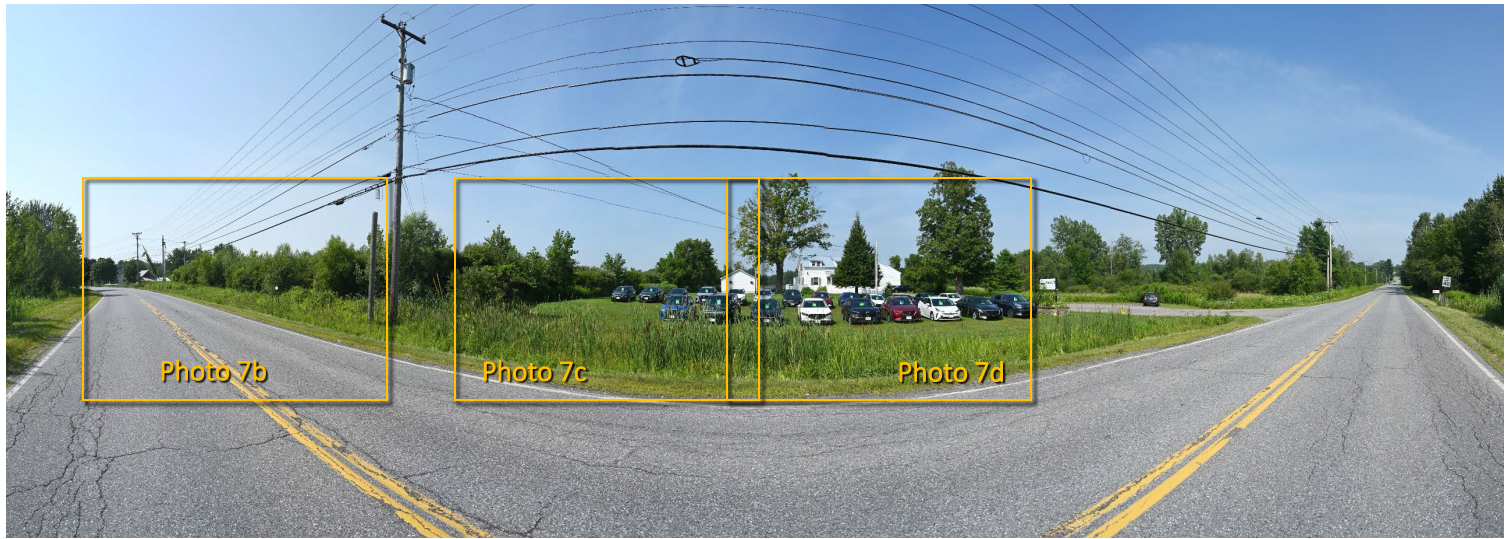

Viewpoint 5: View from the existing access drive near the intersection with Mountain View Road, looking northeast towards the southern Project array area. (50mm)

Viewpoint 6: Approximately 220° panoramic view from Mountain View Road, panning from west (left) to southeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 07/28/2025)

Viewpoint 6: View from Mountain View Road looking north towards the Project site. (50mm)

Viewpoint 7a: Approximately 210° panoramic view from Mountain View Road southeast of the Project site, panning from northwest (left) to southeast (right). The orange rectangles represent the images below, which are captured with a 50mm focal length. (Date Taken: 07/28/2025)

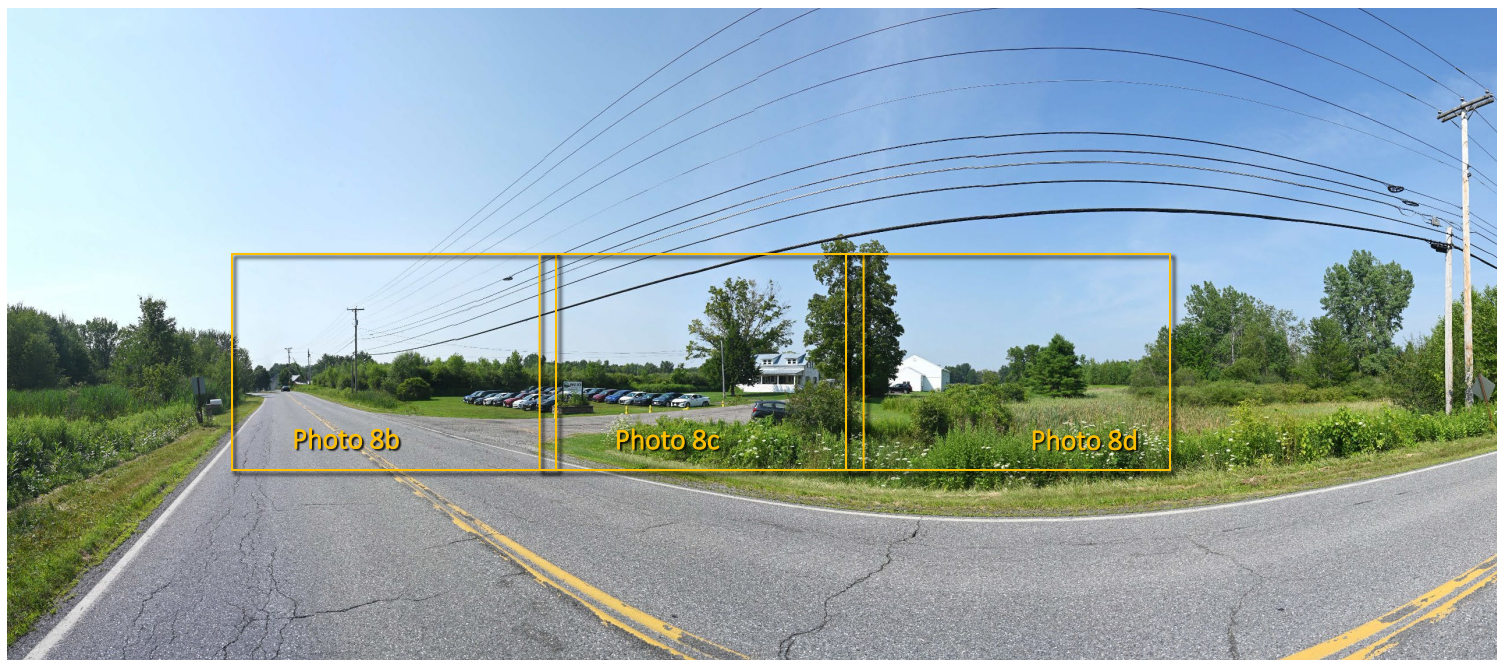

Viewpoint 7b: View from Mountain View Road looking northwest toward the Project site. (50mm)

Viewpoint 7c: View from Mountain View Road looking north toward the Project site. (50mm)

Viewpoint 7d: View from Mountain View Road looking slightly northeast toward existing solar on the Project site. (50mm)

Viewpoint 8a: Approximately 180° panoramic view from Mountain View Road south of the Project, panning from west (left) to east (right). The orange rectangles represent the images below, which are captured with a 50mm focal length. (Date Taken: 07/28/2025)

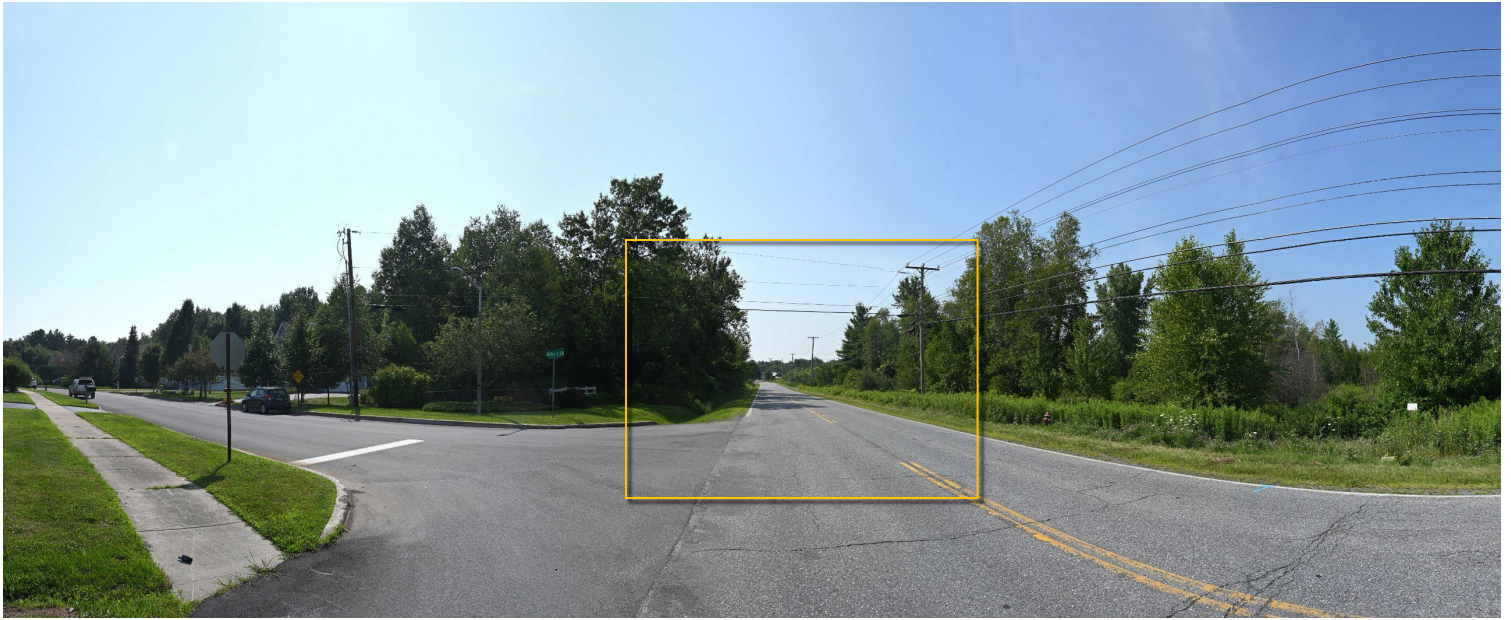

Viewpoint 8b: View from Mountain View Road looking northwest toward the Project site. (50mm)

Viewpoint 8c: View from Mountain View Road looking slightly northwest toward the Project site. (50mm)

Viewpoint 8d: View from Mountain View Road looking north toward existing solar on the Project site. (50mm)

Viewpoint 9: Approximately 180° panoramic view from Mountain View Road at the intersection with Katie Lane southeast of the Project Site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 07/28/2025)

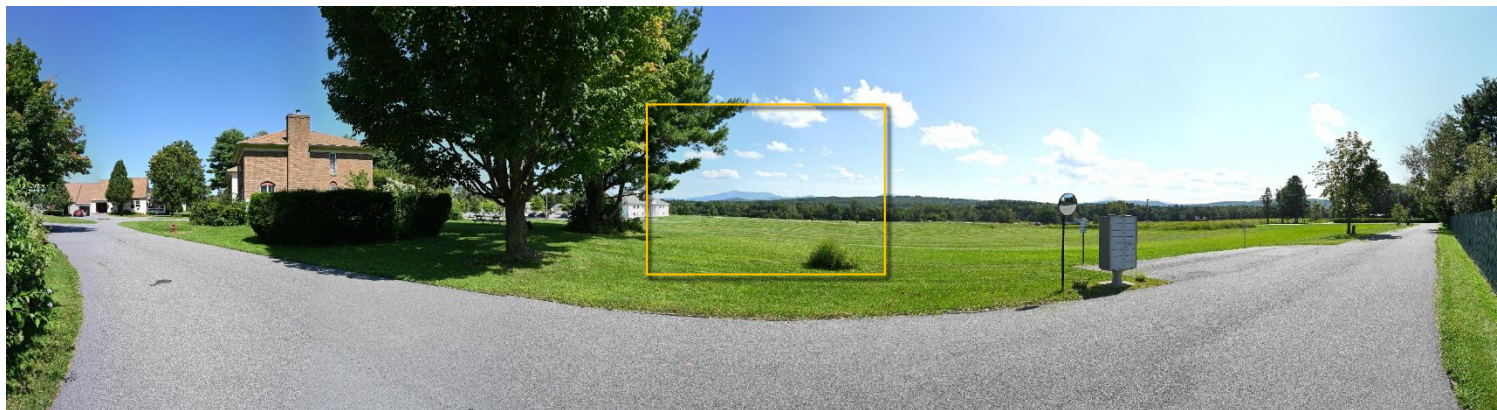

Viewpoint 9: View from Mountain View Road at the intersection with Katie Lane looking northwest towards the Project site. (50mm)

Viewpoint 10: Approximately 180° panoramic view from Mountain View Road at the intersection with Marions Way slightly southwest of the Project Site, panning from northwest (left) to southeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 09/16/2025)

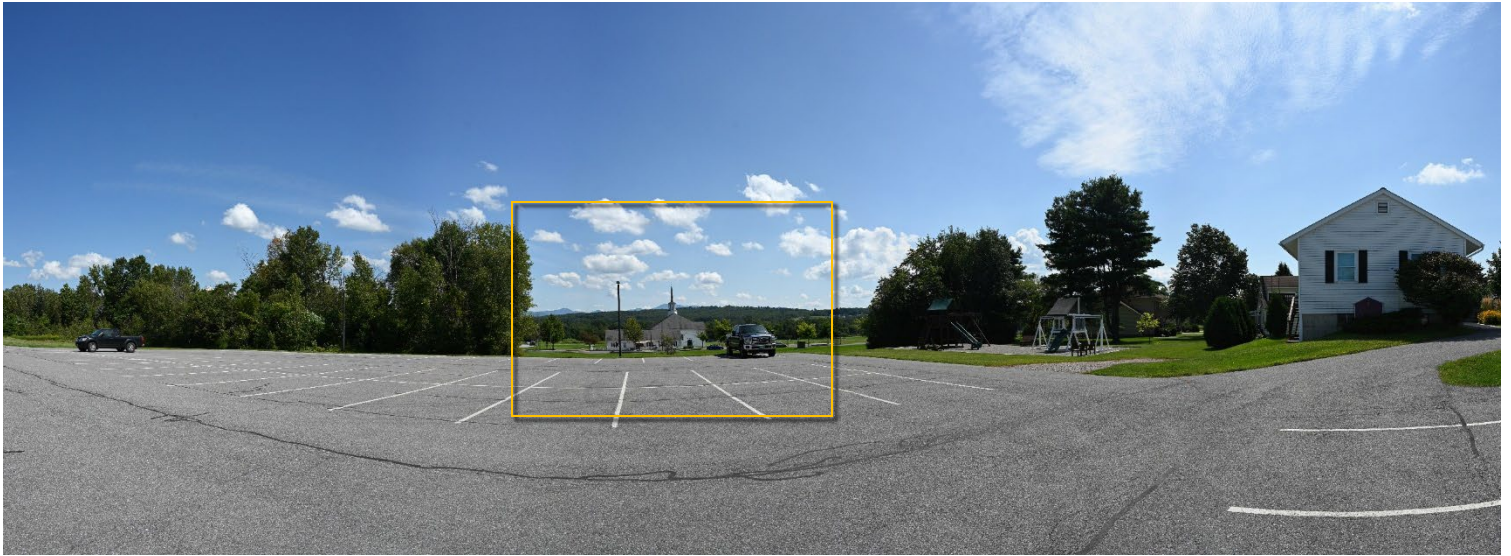

Viewpoint 10: View from Mountain Road at the intersection with Marions Way looking northeast towards the Project site which is screened by existing vegetation. (50mm)

Viewpoint 11: Approximately 250° panoramic view from Marions Way west of the Project Site, panning from northwest (left) to south (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 08/24/2023)

Viewpoint 11: View from Marions Way looking roughly east towards the Project site which is screened by existing vegetation. (50mm)

Viewpoint 12: Approximately 180° panoramic view from the Christ Memorial Church rear parking lot, panning from north (left) to south (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 08/24/2023)

Viewpoint 12: View from the Christ Memorial Church rear parking lot looking east at the existing view of the Trinity Baptist Church and Green Mountains, and towards the Project site which is screened by existing vegetation. (50mm)
