

Viewpoint 1a: Approximately 180° panoramic view near the northern portion of the array area at the Project Site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 03/08/2024)

Viewpoint 1b: View from the Project site looking northwest at existing field and sapling growth, transmission line corridor, and surrounding wooded areas. (50mm)

Viewpoint 1c: Approximately 180° panoramic view near the northern portion of the array area within the Project site, panning from northeast (left) to southwest (right). This is a continuation of the panorama in Viewpoint 1a. The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 03/08/2024)

Viewpoint 1d: View from the Project site looking southeast at the existing field and sapling growth, existing farm road, and surrounding wooded areas. (50mm)

Viewpoint 2a: Approximately 180° panoramic view from the proposed access road on the Project Site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 03/08/2024)

Viewpoint 2b: View from the Project site looking northwest at the existing field, farm road, and surrounded wooded areas. (50mm)

Viewpoint 2c: Approximately 180° panoramic view from the location of the proposed access road on the Project Site, panning from northeast (left) to southwest (right). This is a continuation of the panorama from Viewpoint 2a. The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 03/08/2024)

Viewpoint 2d: View from the Project site looking southeast toward Redmond Road beyond roadside vegetation. (50mm)

Viewpoint 3a: Approximately 180° panoramic view from the location of the proposed access road on the Project Site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 10/06/2025)

Viewpoint 3b: View from the Project site looking northwest at existing field, farm road, and surrounded wooded areas. (50mm)

Viewpoint 3c: Approximately 180° panoramic view from the location of the proposed access road on the Project Site, panning from northeast (left) to southwest (right). This is a continuation of the panorama from Viewpoint 3a. The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 10/06/2025)

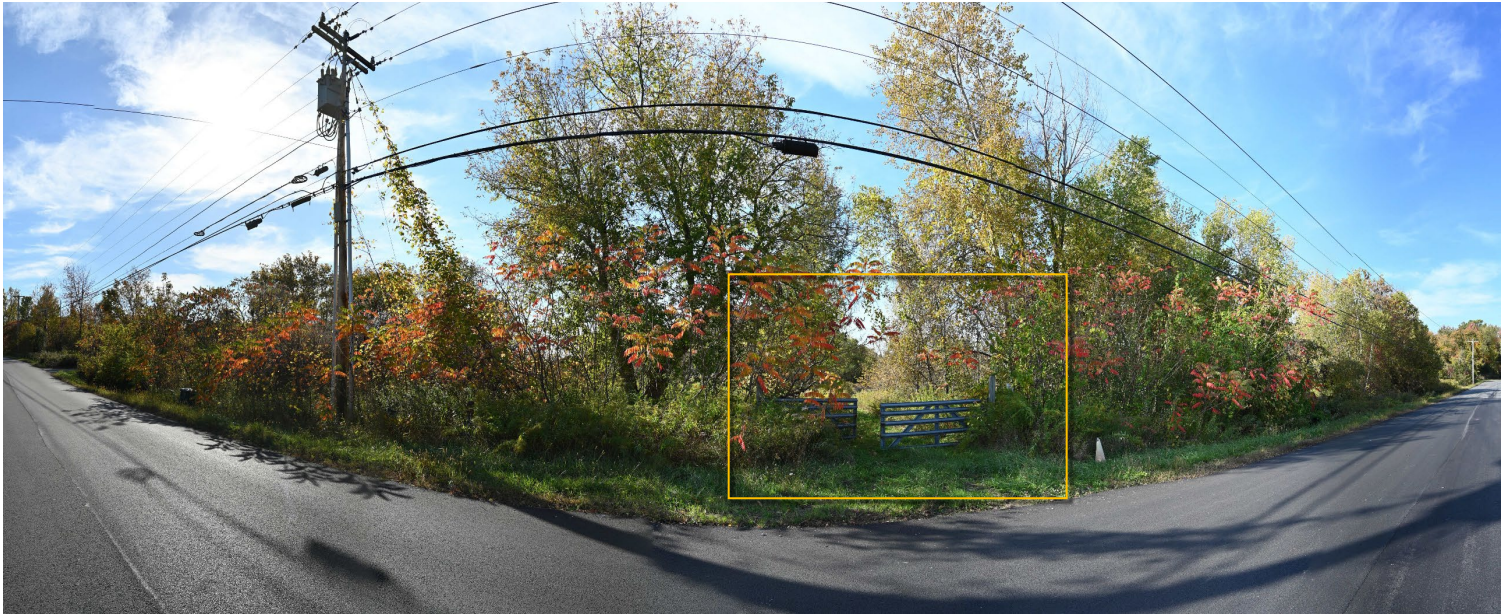

Viewpoint 3d: View from the Project site looking southeast toward Redmond Road beyond roadside vegetation. (50mm)

Viewpoint 4: Approximately 180° panoramic view from Redmond Road southeast of the Project Site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 08/24/2023)

Viewpoint 4: View from Redmond Road at the Chip Alley intersection, looking northwest towards the Project site. (50mm)

Viewpoint 5: Approximately 180° panoramic view from Redmond Road near the intersection with the existing property access, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 10/06/2025)

Viewpoint 5: View from Redmond Road near the intersection with the existing access drive, looking northwest towards the Project Site. (50mm)

Viewpoint 6: Approximately 180° panoramic view from Redmond Road southeast of the Project site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 10/06/2025)

Viewpoint 6: View from Redmond Road looking northwest towards the Project Site. (50mm)

Viewpoint 7: Approximately 180° panoramic view from Redmond Road southeast of the Project site, panning from southwest (left) to northeast (right). The orange rectangle represents the image below, which is captured with a 50mm focal length. (Date Taken: 08/24/2023)

Viewpoint 7: View from Redmond Road looking northwest towards the Project site. (50mm)

Viewpoint 8: Approximately 180° panoramic view from the existing field adjacent to Robinson Parkway northwest of the Project (on private property), panning from east (left) to west (right). The orange rectangles represent the images below, which are captured with a 34mm focal length. (Date Taken: 03/08/2024)

Viewpoint 8: View from the existing field adjacent to Robinson Parkway (on private property) looking southeast toward the Project site. (34mm)
