PUBLIC UTILITY COMMISSION

Case No. 25-1809-TF

Tariff filing of Town of Stowe Electric Department for approval of EV and EVSE Flexible Load Management Program effective on service rendered on or after October 1, 2025	
--	--

Order entered: 12/16/2025

SCHEDULING CONFERENCE ORDER

On August 18, 2025, the Town of Stowe Electric Department (“Stowe Electric”) filed tariff documents with the Vermont Public Utility Commission (“Commission”) reflecting a flexible load management program for electric vehicles and electric vehicle supply equipment. The tariff changes were proposed to take effect on a service-rendered basis commencing October 1, 2025.

On September 17, 2025, the Vermont Department of Public Service (“Department”) recommended that the Commission open an investigation into Stowe Electric’s tariff filing.

On September 18, 2025, Stowe Electric responded to the Department’s recommendation and requested that the Commission approve the tariffs without investigation.

On September 25, 2025, the Commission opened an investigation and suspended implementation of the tariffs.

On November 21, 2025, I held a scheduling conference in this matter and Case No. 25-1792-TF. Appearances were entered by Michael Lazorchak on behalf of Stowe Electric and Michael Swain on behalf of the Department.

The Department and Stowe Electric filed a joint proposed schedule for this proceeding and Case No. 25-1792-TF. The parties requested the two proceedings be conducted concurrently. I support conducting these proceedings concurrently and I adopt the proposed schedule with some modifications below. At the scheduling conference the parties and I discussed the lack of need for a public hearing in these proceedings, so I have removed the public hearing from the proposed schedule.
