

PETITION

to Rochester Planning and Select Boards, and landowners Charlie and Julia Martin on the matter of the proposed construction of a Vertex 140 ft. tower at 1030 Rt.100 S

Whereas, the Rochester Town Plan attempts to protect the Town's character;

Whereas, this proposed addition to the Town's landscape was not requested by the people of the Town but is an industry-driven endeavor;

Whereas, this tower is unnecessary for cell phone connectivity for residents of this town; and

Whereas, health and environmental risks are real but always denied by corporate entities who are stakeholders for profits,

We the undersigned residents of Rochester, Vermont, hereby state our opposition to the proposed Vertex cell tower at 1030 Rt 100S. This is not consistent with our Town Plan, is a potential risk to our health and well-being, a flood risk, and a perpetual eyesore. We request that you stop this process immediately, by whatever means you have at your disposal.
