

Dear PUC:

My sincere request to all of you regarding the proposed cell phone tower in our Town is TO PRECISELY FOLLOW THE TOWN PLAN. That is really very straight forward and includes all the following reasons as well:

- Scenic byway
- Wetland
- Endangered species exist.
- Grade is steeper than 30% way most often.
- Coverage is such that very few people will benefit.
- No adequate compensation damage
- No consideration of alternative option of individual pole cells
- No added safety for our Town
- No added benefit anywhere of planting trees
- No satisfactory benefit to our Town and only a huge benefit to large corporations, and a huge benefit to one landowner, as all the other invited landowners refused the offer.
- Therefore, to follow the Town plan as required, the Planning Commission members would need to vote to not be in favor of the proposed cell tower.

SO, PLEASE TURN THIS "OFFER" DOWN FOR THE SAKES OF ALL OF US IN THE TOWN AND ALL FUTURE RESIDENTS.

Sincerely,

Jean Murray
