**Re: Petition of Novus 242 Solar LLC for a Certificate of Public Good, pursuant to 30 V.S.A. § 248, authorizing the installation and operation for a 3.75 MW ground-mounted solar array in Jay, Vermont to be known as the “Novus 242 Solar Project”**

Dear Mr. Poor:

On February 6, 2026, Novus 242 Solar LLC (“N2S”) filed a Petition with the Vermont Public Utility Commission for a Certificate of Public Good pursuant to 30 V.S.A. § 248, a copy of which has been served on the Department via ePUC. With this Petition, N2S is requesting Commission approval for the installation and operation of a 3.75 MW ground-mounted solar array project located in Jay, Vermont.

N2S respectfully requests that the Department of Public Service make a determination under 30 V.S.A. § 202(f) that the Project is consistent with the Vermont Electrical Energy Plan. The issue has been addressed in the prefiled direct testimony of Alex Bravakis, submitted with the Petition.

Please let me know if you have any questions concerning the filing. We look forward to hearing back from the Department at your earliest convenience.

Sincerely,

Victoria M. Westgate, Esq.  
SRH Law PLLC
