MEMORANDUM

To: Novus 242 Solar LLC and Parties to Case No. 26-0261-PET
From: Elizabeth Schilling, Deputy General Counsel 
Re: 26-0261-PET – Incomplete Filing and Deadline for Responses to Petitioner’s Request for a Waiver
Date: February 11, 2026

On February 6, 2026, the Vermont Public Utility Commission (“Commission”) received Novus 242 Solar LLC’s (“Petitioner”) petition to construct a 3.75 MW solar electric generation facility in Jay, Vermont.

Commission staff have reviewed the petition and supporting prefiled testimony and exhibits and have determined, pursuant to Commission Rule 5.406, that the petition is incomplete for the following reasons:

1. The petition does not include: (1) sufficient information to document compliance with Commission Rule 5.500, regarding interconnection procedures for electric generation facilities, as required by Commission Rule 5.403(A)(14), and (2) sufficient facts to support a positive finding under 30 V.S.A. § 248(b)(3) (system stability and reliability), as required by Commission Rule 5.403(A)(1).

The Petitioner anticipated that the Commission might make this determination and requested that the Commission waive the completeness requirement identified above, pursuant to Commission Rule 5.415. The Petitioner contends that there is good cause to do so due to the unique circumstances of the petition.¹

I am treating the request as a motion for waiver pursuant to Commission Rules 2.107 and 5.415. **I request that any responses to the motion for waiver be filed within 14 days of the issuance of this memo.**

¹ Petition at 3-5.
