2. Responses to any and all Agency requests that are contained herein or that may be filed later should be supplied to the Agency as soon as they become available to Petitioner. That is, Petitioner should not hold answers to any requests for which it does have responsive data, documents, etc., until responses to any or all other requests are compiled.
3. The response to each request should be made under oath by a person competent to testify concerning the response and all documents and exhibits produced as part of the response.
With respect to each request, please state (1) the name(s) and title(s) of the person or persons responsible for preparing the response; and (2) the administrative unit which maintains the

5. These requests shall be deemed continuing. Petitioner is directed to change, supplement and correct its answers to conform to all information as it becomes available, including the substitution of actual data for estimated data. Responses to requests for information covering a period not entirely in the past (or for which complete actual data are not yet available) should include all actual data available at that time and supplementary data as it becomes available.

6. Wherever responses include estimated information, include an explanation (or reference to a previous explanation) of the methods and calculations used to derive the estimates.

7. Some of the Agency's requests may make particular reference to a portion of a filing in this matter. Notwithstanding this specific direction, these items should be understood to seek discovery of all information available to Petitioner that is responsive to the questions stated.
